

Customized Manufacturing Service SECC-T1N Stainless Steel Hardware Metal Shell Box

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Application: Automotive/Construction/Machinery
- Surface Treatment: Galvanized/Coated
- Tolerance: $\pm 0.05\text{mm}$
- Color: Silver/Black
- Corrosion Resistance: Strong
- Process: Stamping/Punching
- Material: Iron/Steel
- Heat Resistance: Yes
- Finish: Smooth/Matte
- Thickness: 0.5mm-10mm
- Weight: 0.01kg-10kg
- Durability: High
- Size: Customized
- Oem/Odm: Available
- Highlight: Custom Metal Fabrication Services 0.05mm.

Product Description

Item	Description
Product Name	Customized Manufacturing Service SECC-T1N Stainless Steel Hardware Metal Shell Box
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Elevate your projects with our custom metal fabrication services, specializing in stainless steel and aluminum enclosure box chassis sheet metal enclosures. Whether you require sleek and durable enclosures for electronics, machinery, or industrial equipment, our fabrication expertise ensures top-notch results tailored to your exact specifications.

Key Services Offered:

Custom Design: Our experienced design team works closely with you to create customized enclosure solutions that meet your specific requirements, ensuring functionality, aesthetics, and structural integrity.

Material Selection: We offer a wide range of high-quality materials, including stainless steel and aluminum, allowing you to choose the ideal material for your application based on factors such as durability, corrosion resistance, and aesthetics.

Precision Fabrication: Using advanced fabrication techniques and state-of-the-art equipment, we meticulously fabricate each enclosure component with precision, ensuring tight tolerances and consistent quality.

Surface Finishes: Enhance the appearance and durability of your enclosures with a variety of surface finishes, including powder coating, anodizing, and polishing, to match your desired aesthetics and environmental requirements.

Advantages of Our Services:

Customization Options: We offer a high level of customization, allowing you to specify dimensions, features, cutouts, and mounting options to perfectly suit your application needs.

Quality Assurance: Our fabrication processes adhere to strict quality control standards, ensuring that each enclosure meets or exceeds industry standards for performance, durability, and reliability.

Cost-Effective Solutions: With efficient fabrication processes and competitive pricing, we provide cost-effective solutions without compromising on quality or craftsmanship.

Quick Turnaround: We understand the importance of project timelines, and our streamlined fabrication processes enable us to deliver your custom enclosures in a timely manner, keeping your project on schedule.

Applications:

Electronics and Telecommunications: Ideal for housing electronic components, servers, routers, and communication equipment, providing protection and organization in various applications.

Industrial Machinery: Used in control panels, machinery enclosures, and equipment housings, ensuring safety, functionality, and durability in industrial environments.

Automotive: Suitable for automotive electronics, battery enclosures, and vehicle components, providing rugged protection and reliability in automotive applications.

Commercial and Retail: Perfect for kiosks, display cases, and retail fixtures, offering sleek aesthetics and durability for

commercial and retail environments.

Why Choose Us?

Expertise and Experience: With years of experience in custom metal fabrication, our team has the expertise and skills to deliver superior results that meet your exact specifications.

Customer-Centric Approach: We prioritize customer satisfaction and work closely with you throughout the fabrication process to ensure that your needs are met and exceeded.

Quality Craftsmanship: From design to fabrication, each step of the process is executed with precision and attention to detail, resulting in high-quality enclosures that meet the highest standards.

Upgrade your projects with our custom metal fabrication services for stainless steel and aluminum enclosures. Contact us today to discuss your requirements and discover how we can turn your vision into reality with precision and reliability.
