

Factory Custom Stainless Steel Sheet Metal Fabrication ATM Metal Stamping Parts Bending And Laser Cutting Service

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Size: Customized Size
- Color: Customized Color
- Material: Metal
- Functionality: Supports ATM Machines
- Precision: High
- Durability: High
- Highlight: atm stamping metal parts,
stainless steel atm metal parts,
stainless steel stamping metal parts

Product Description

Item	Description
Product Name	Factory Custom Stainless Steel Sheet Metal Fabrication ATM Metal Stamping Parts Bending And Laser Cutting Service
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling,Forming, threading,welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks,Pro/Engineer,Auto CAD,PDF,JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Upgrade your projects with our factory-custom stainless steel sheet metal fabrication service, specializing in ATM metal stamping parts, bending, and laser cutting. With a focus on precision engineering and advanced fabrication techniques, we deliver components tailored to your specifications, ensuring exceptional performance and reliability.

Key Features:

Stainless Steel Material: We utilize high-quality stainless steel known for its durability, corrosion resistance, and versatility, ensuring longevity and reliability for your components.

Metal Stamping Parts: Utilizing precision stamping technology, we fabricate ATM metal parts with precise dimensions and intricate details, ensuring consistency and quality for a wide range of applications.

Bending and Laser Cutting Service: Our advanced bending and laser cutting machinery allows for precise fabrication of components with accurate angles, shapes, and dimensions, ensuring seamless integration into your projects.

Advantages of Our Service:

Precision Engineering: Our expertise in metal fabrication ensures precise manufacturing of parts, meeting the strictest tolerances and quality standards for exceptional performance and fitment.

Durable and Reliable: Built to withstand demanding environments and operating conditions, our stainless steel components offer durability, reliability, and longevity, ensuring consistent performance over time.

Versatile Applications: Whether for ATM machines, electronic enclosures, or industrial machinery, our metal fabrication service is suitable for a wide range of uses, providing versatility and adaptability to diverse industries.

Customization Options: We offer a wide range of customization options, including material selection, surface finishes, and design modifications, allowing you to tailor your components to meet specific project requirements.

Applications:

ATM Machines: Ideal for manufacturing ATM components such as enclosures, bezels, and fascias, providing robust protection and security for sensitive equipment.

Electronic Enclosures: Suitable for housing electronic devices, control panels, and instrumentation, our stainless steel components offer durability and reliability in electronic applications.

Industrial Machinery: Used in industrial machinery for manufacturing components such as frames, enclosures, and panels, providing robust support and protection in demanding environments.

Why Choose Us?

Experience and Expertise: With years of experience in metal fabrication, our team has the knowledge and expertise to deliver high-quality components that meet your exact specifications and performance requirements.

State-of-the-Art Facilities: Our modern fabrication facilities are equipped with advanced machinery and technology, allowing us to execute complex projects with precision and efficiency.

Customer-Centric Approach: We prioritize customer satisfaction and strive to exceed your expectations with every order, offering responsive communication, personalized service, and on-time delivery.

Experience the precision and reliability of our factory-custom stainless steel sheet metal fabrication service. Contact us today to discuss your requirements and discover how we can help bring your projects to life with precision and reliability.
