Customized cold-rolled sheet metal stamping parts/metal precision CNC parts

Basic Information

Place of Origin: China Minimum Order Quantity: 1000

• Price: \$+1~10+Pcs

• Delivery Time: 15-20

• Payment Terms: L/C, D/A, D/P, T/T, Western Union,

MoneyGram

• Supply Ability: 3000+pcs+Month

Product Specification

Process: Stamping
Application: Machinery
Material: Iron Steel
Shape: Customized
Size: Customized

• Function: Support And Connect Components

Color: Metallic Or Customized

Highlight: Customized stamped metal components,

Metallic stamped metal components,

Metallic precision cnc parts

Product Description

Item	Description
Product Name	Customized Stainless Steel Aluminum Brass Stamped Metal Components / Metallic Precision CNC Parts
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks,Pro/Engineer,Auto CAD,PDF,JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Customized Stainless Steel, Aluminum, and Brass Sheet Metal Cutting and Bending: Precision CNC Parts

Introduction: Welcome to our specialized service offering customized precision CNC parts made from stainless steel, aluminum, and brass sheet metal. We excel in providing tailored solutions to meet your specific requirements, ensuring accuracy, reliability, and versatility for your projects.

Advanced CNC Technology: Our cutting-edge CNC technology empowers us to achieve precise cuts and bends on a variety of sheet metal materials, including stainless steel, aluminum, and brass. With exceptional accuracy and consistency, our CNC machines ensure that each part is crafted to meet your exact specifications.

Customized Cutting and Bending Services: We understand the unique nature of each project. Therefore, we offer customized cutting and bending services to accommodate your specific needs. Whether you require different thicknesses, sizes, or shapes, our team collaborates closely with you to ensure that your parts are meticulously crafted to match your precise requirements.

Precision Cutting: Our CNC sheet metal cutting services deliver precise and clean cuts, minimizing material wastage. Whether it's intricate designs or complex shapes, our cutting processes guarantee clean edges and tight tolerances, facilitating seamless integration into your assemblies.

Expert Bending: Our CNC bending services provide flexibility in shaping sheet metal parts to meet your design specifications. Whether it involves simple bends or complex geometries, our precision bending technology ensures accurate angles and dimensions, ensuring a perfect fit for your applications.

Quality Assurance: Quality is paramount in our operations. Each part undergoes rigorous quality control checks throughout the manufacturing process to ensure precision, accuracy, and reliability. With our unwavering commitment to excellence, you can trust that your CNC sheet metal parts will meet the highest standards of quality and performance.

Versatile Applications: Our customized CNC parts made from stainless steel, aluminum, and brass find applications across various industries, including automotive, aerospace, electronics, and more. Whether you need components for machinery, enclosures, brackets, or decorative elements, our parts offer reliability and performance in diverse applications.

Contact Us Today: Ready to elevate your projects with customized precision CNC parts? Contact us today to discuss your requirements and discover how we can provide tailored solutions to meet your needs. With our expertise, dedication, and commitment to excellence, we're here to help you achieve your goals with precision and efficiency.
