

## Custom Laser Cutting Stamping Bending Parts Stainless Steel Aluminium Sheet Metal

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

#### Product Specification

- Corrosion Resistance: Yes
- Durability: High
- Material: Iron/Steel
- Finish: Smooth
- Strength: Strong
- Tolerance:  $\pm 0.01\text{mm}$
- Application: Automotive/Construction
- Size: Customized
- Color: Silver/Black
- Highlight: **Strong Strength stamping bending parts,  
Laser Cutting stamping bending parts,  
Strong Strength stamped metal components**

## Product Description

Item	Description
Product Name	Custom Laser Cutting Stamping Bending Parts Stainless Steel Aluminium Sheet Metal
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

### Premium Custom Metal Fabrication Services: Precision-Crafted Solutions for Your Project Needs

Unlock the potential of your designs with [DONG FENG SHENGSHI]'s premium custom metal fabrication services. Specializing in laser cutting, stamping, and bending, we offer precision-crafted solutions for stainless steel and aluminum sheet metal, delivering exceptional quality, versatility, and reliability for a wide range of applications.

#### Unmatched Precision and Accuracy:

At [DONG FENG SHENGSHI], precision is our promise. Utilizing state-of-the-art CNC technology, our laser cutting processes ensure precise cuts with micron-level accuracy on stainless steel and aluminum sheet metal. Each component is meticulously crafted to your exact specifications, guaranteeing a perfect fit for your project needs.

#### Seamless Integration of Complex Designs:

With our expert stamping services, we bring your designs to life with precision and consistency. From intricate patterns to geometric shapes, our stamping processes deliver uniform results with crisp details and sharp edges, allowing for seamless integration into your assemblies and structures.

#### Versatile Bending Capabilities:

Our bending services offer unparalleled flexibility in shaping stainless steel and aluminum sheet metal to meet your design requirements. Whether you need simple bends or complex geometries, our precision bending technology ensures precise angles and contours, providing you with custom components that perfectly match your vision.

#### Tailored Solutions for Every Project:

At [DONG FENG SHENG SHI], we understand that no two projects are alike. That's why we offer a range of customization options to suit your specific needs. From material selection and thickness to surface finishes and coatings, we work closely with you to ensure that each component is tailored to meet your unique requirements.

#### Stringent Quality Control Standards:

Quality is at the forefront of everything we do. Our rigorous quality control processes ensure that every metal fabrication part meets the highest standards of excellence and reliability. From initial design review to final inspection, we adhere to strict quality control measures to deliver components that exceed your expectations.

#### Applications Across Industries:

Our custom metal fabrication services cater to a diverse range of industries and applications, including:

**Automotive:** Precision-engineered components for vehicles, including body panels, brackets, and structural elements.

**Electronics:** Custom enclosures, chassis, and heat sinks for electronic devices and equipment.

**Aerospace:** High-performance components for aircraft, including structural elements, panels, and brackets.

**Architecture:** Architectural features, cladding, and decorative elements for buildings and structures.

**Machinery:** Protective covers, guards, and frames for industrial machinery and equipment.

**Partner with Us:**

Whether you're a design engineer, project manager, or procurement specialist, [DONG FENG SHENG SHI ] is your trusted partner for premium custom metal fabrication services. Contact us today to discuss your project requirements and discover how we can turn your ideas into reality with precision, expertise, and dedication.
