

0.01mm Precision Mechanical Stamping Parts 0.5mm-10mm Galvanized Sheet Bending

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Material: Iron Steel
- Surface Treatment: Galvanized
- Tolerance: $\pm 0.01\text{mm}$
- Size: Customized
- Weight: 0.1kg-10kg
- Thickness: 0.5mm-10mm
- Color: Customized
- Highlight: **0.01mm Precision Mechanical Stamping Parts, 10mm Galvanized Sheet Bending, Mechanical Stamping Parts 0.5mm**

Product Description

Item	Description
Product Name	0.01mm Precision Mechanical Stamping Parts 0.5mm-10mm Galvanized Sheet Bending
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Upgrade your mechanical equipment with our factory direct sales of precision-manufactured steel galvanized sheet stamping parts. Our expert fabrication team specializes in precision bending and stamping techniques, delivering high-quality components directly from the factory to your doorstep.

Key Features:

Precision Stamping: Our advanced stamping equipment ensures precise fabrication of metal parts with intricate designs and complex shapes, meeting the highest standards of accuracy and repeatability.

Bending: With state-of-the-art bending machinery, we offer precision bending services to create structural components and enclosure frames with tight tolerances and exact specifications.

Galvanized Sheet: We use high-quality galvanized sheet steel known for its corrosion resistance and durability, ensuring long-lasting performance for your mechanical equipment components.

Direct Sales: By eliminating intermediaries, we offer factory direct sales of stamped and bent parts, providing cost-effective solutions without compromising on quality or craftsmanship.

Advantages of Our Service:

Cost-Effective Pricing: Our factory direct sales model allows us to offer competitive pricing for high-quality stamped and bent parts, providing cost savings for your manufacturing projects.

Customization Options: We offer a wide range of customization options, including material thickness, bending angles, surface finishes, and production quantities, to meet your specific project requirements.

Efficient Production: With streamlined production processes and efficient machinery, we provide fast turnaround times for your orders, ensuring timely delivery of your components.

Quality Assurance: Each component undergoes rigorous quality control checks throughout the fabrication process to ensure that it meets the highest standards of quality and performance.

Applications:

Machinery Components: Ideal for manufacturing precision parts such as brackets, mounts, and frames for industrial machinery, ensuring durability and reliability in demanding environments.

Enclosure Panels: Suitable for fabricating panels, covers, and housings for electronic enclosures and control cabinets, providing protection and organization for sensitive components.

Automotive Parts: Used in automotive applications for manufacturing chassis components, brackets, and mounts, ensuring structural integrity and safety in vehicles.

Why Choose Us?

Experience and Expertise: With years of experience in metal fabrication, our team has the knowledge and expertise to deliver high-quality stamped and bent parts that meet your exact specifications.

Quality Materials: We source materials from reputable suppliers, ensuring that our components are fabricated from the highest quality galvanized sheet steel available.

Customer Satisfaction: We prioritize customer satisfaction and strive to exceed your expectations with every order, providing responsive customer support and timely delivery of your components.

Upgrade your mechanical equipment with our factory direct sales of precision-manufactured steel galvanized sheet stamping parts. Contact us today to discuss your requirements and request a quote.
