

Professional factory produces ATM equipment parts stamping, sheet metal cutting and welding services

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Process: Metal Stamping And Punching
- Surface: Deburr And Break Sharp Edges
- Size: Customized
- Surface Color Standard: RAL , Pantone, RGB, CMYK.
- Mould Material: SKD11, P20/718/738/NAK80/S136
- Sample: Available If Need
- Product Material: Metal, Steel, Alloy Steel, Aluminum, Brass
- Design: Customized
- Manufacturing Process: Stamping, Progressive Stamping
- Shape: Customized
- Highlight: atm stamping metal parts,
aluminum atm metal parts,
customized atm metal parts

Product Description

Item	Description
Product Name	Professional factory produces ATM equipment parts stamping, sheet metal cutting and welding services
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manupulator
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Introduction: Welcome to our professional manufacturing services for ATM equipment parts. With a focus on precision engineering and exceptional quality, we provide comprehensive solutions tailored to the unique requirements of the ATM industry.

Stamped Components for Precision Performance: Our precision stamping processes ensure the production of ATM components with unmatched accuracy and reliability. Utilizing advanced stamping machinery and stringent quality control measures, we create stamped parts that meet the exacting standards of the financial sector, delivering precision performance and durability.

Precise Sheet Metal Cutting Services: Our state-of-the-art sheet metal cutting services provide precise and clean cuts on a variety of materials used in ATM equipment manufacturing. From stainless steel to aluminum alloys, our cutting processes ensure accuracy and consistency in every component, ensuring seamless integration into ATM systems.

Expert Welding for Seamless Integration: Our expert welding services ensure seamless integration of ATM components, providing structural strength and longevity. With skilled welders and advanced welding techniques, we create strong and reliable joints that withstand the demands of daily ATM operations, ensuring uninterrupted functionality and security.

Custom Solutions Tailored to Your Needs: We understand that every ATM system is unique. That's why we offer custom solutions tailored to your specific needs. Whether it's custom designs, material specifications, or finishing options, we collaborate closely with you to ensure that each part is precisely crafted to meet your exact requirements.

Quality Assurance Excellence: Quality is the cornerstone of our manufacturing processes. From initial design to final inspection, we adhere to rigorous quality control measures to ensure that every ATM equipment part meets the highest standards of excellence. With our commitment to quality assurance, you can trust that your components will perform reliably in any ATM system.

Applications Across the ATM Industry: Our manufacturing services cater to a diverse range of ATM equipment parts, including cash dispenser mechanisms, card reader enclosures, keypad brackets, and security features. Whether you're a manufacturer, distributor, or service provider, our solutions enhance the performance and reliability of your ATM systems.

Contact Us Today: Ready to elevate your ATM equipment with professional manufacturing services? Contact us today to discuss your requirements and discover how we can provide tailored solutions to meet your needs. With our expertise, dedication, and commitment to excellence, we're your trusted partner in the ATM industry.
