SECC metal switch controller precision shell component

Basic Information

Place of Origin: China Minimum Order Quantity: 1000

• Price: \$+1~10+Pcs

• Delivery Time: 15-20

• Payment Terms: L/C, D/A, D/P, T/T, Western Union,

MoneyGram

• Supply Ability: 3000+pcs+Month

Product Specification

Finish: Smooth/Matte
Tolerance: ±0.01mm
Size: Customized
Weight: 0.1-10kg

• Application: Automotive/Construction

• Process: Stamping

• Surface Treatment: Galvanized/Coated

Material: Iron/SteelThickness: 0.5-10mmColor: Customized

Highlight: 10mm sheet metal enclosure box,

stainless steel metal enclosure fabrication, sheet metal enclosure box stainless steel

Product Description

Item	Description
Product Name	SECC metal switch controller precision shell component
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, Ecating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks,Pro/Engineer,Auto CAD,PDF,JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Precision Machine Box Stainless Steel Aluminum Metal Stamping Parts Laser Cutting Sheet Metal Service

Experience precision and reliability with our comprehensive metal fabrication service, specializing in precision machine box stainless steel and aluminum metal stamping parts, alongside laser cutting sheet metal service. We offer a complete solution to meet your exacting requirements, delivering high-quality components with meticulous craftsmanship.

Key Features:

Precision Stamping: Our state-of-the-art stamping equipment ensures accurate and consistent fabrication of metal parts, allowing for intricate designs and complex shapes to be achieved with precision.

Laser Cutting: With advanced laser cutting technology, we provide precise and clean cuts on various metal materials, including stainless steel and aluminum, ensuring superior quality and tight tolerances.

Customization Options: We offer a wide range of customization options, allowing you to specify dimensions, shapes, hole patterns, and surface finishes to suit your specific application needs.

High-Quality Materials: We use premium-grade stainless steel and aluminum materials known for their durability, corrosion resistance, and suitability for a wide range of applications.

Advantages of Our Service:

Versatile Applications: Our metal stamping and laser cutting services cater to a diverse range of industries and applications, including automotive, electronics, aerospace, and more.

Quality Assurance: Each component undergoes rigorous quality control checks throughout the fabrication process to ensure that it meets the highest standards of precision and accuracy.

Efficient Production: Our streamlined production processes and advanced equipment enable us to deliver fast turnaround times without compromising on quality or precision.

Experienced Team: Our team of skilled technicians and engineers has extensive experience in metal fabrication, ensuring that your components are fabricated with the utmost care and attention to detail.

Applications:

Automotive Components: Ideal for manufacturing precision parts such as brackets, mounts, and housings for automotive applications, ensuring durability and reliability in demanding environments.

Electronics Enclosures: Suitable for fabricating enclosures, panels, and chassis for electronic devices and equipment, providing protection and organization for sensitive components.

Industrial Machinery: Essential for producing components and parts for industrial machinery and equipment, including structural elements, covers, and guards, ensuring safety and functionality.

Aerospace: Used in aerospace applications for fabricating lightweight and durable components such as brackets, frames, and panels, meeting stringent industry standards.

Why Choose Us?

Precision Engineering: We combine advanced technology with skilled craftsmanship to deliver precision-engineered components that meet the most demanding requirements.

Customized Solutions: Our flexible approach allows us to tailor our services to meet your specific needs, ensuring that you receive the perfect solution for your application.

Quality Materials: We source materials from trusted suppliers, ensuring that our components are fabricated from the highest quality materials available.

Exceptional Customer Service: Our dedicated team is committed to providing exceptional customer service, working closely with you to understand your needs and deliver solutions that exceed your expectations.

Experience the difference with our precision machine box stainless steel aluminum metal stamping parts and laser cutting sheet metal service. Contact us today to discuss your project requirements and discover how we can help bring your vision to
