

## SPCC cold-rolled sheet metal shell component

### Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

### Product Specification

- Type: Factory
- Color: Customized
- Process: Stamping
- Thickness: 0.1mm - 3mm
- Application: Industrial
- Sizi: Customized
- Highlight: aluminium sheet metal enclosure assembly , sheet metal enclosure assembly 0.1mm, 3mm sheet metal enclosures

## Product Description

Item	Description
Product Name	SPCC cold-rolled sheet metal shell component
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manipulator
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

## High-Quality Laser Cutting, Stamping, Bending, and Welding Services: Aluminum and Stainless Steel Enclosure Sheet Metal Fabrication

*Elevate your projects with our high-quality sheet metal fabrication services, offering precision laser cutting, stamping, bending, and welding for aluminum and stainless steel enclosures. Whether you need intricate designs or robust structural components, our expertise ensures top-notch results for your fabrication needs.*

### Key Services Offered:

**Laser Cutting:** Utilizing state-of-the-art laser cutting technology, we precisely cut aluminum and stainless steel sheets to your exact specifications, ensuring clean edges and precise shapes for your enclosures.

**Stamping:** Our stamping process allows for the creation of complex patterns, logos, and features on metal sheets, providing customization options and branding opportunities for your enclosures.

**Bending:** With advanced bending equipment, we can accurately bend metal sheets to create structural components and enclosure frames, ensuring the perfect fit and durability of your assemblies.

**Welding:** Our skilled welders employ industry-leading welding techniques to join metal components seamlessly, ensuring strong and durable connections for your enclosures.

### Advantages of Our Services:

**High-Quality Materials:** We use premium-grade aluminum and stainless steel materials known for their durability, corrosion resistance, and aesthetic appeal, ensuring long-lasting and visually appealing enclosures.

**Precision Craftsmanship:** Our experienced technicians and engineers ensure meticulous attention to detail throughout the fabrication process, resulting in precise and consistent results for your projects.

**Customization Options:** We offer a wide range of customization options, including material selection, design modifications, surface finishes, and production quantities, to meet your specific project requirements and aesthetic preferences.

**Versatile Applications:** Our sheet metal fabrication services cater to various industries, including electronics, telecommunications, automotive, and industrial equipment, providing solutions for a wide range of enclosure needs.

### Applications:

**Electronics Enclosures:** Ideal for housing electronic components, control panels, and communication devices, ensuring protection and organization of sensitive equipment.

**Automotive Components:** Used in vehicle enclosures, battery housings, and engine compartments, providing structural

support and protection for automotive systems.

**Industrial Equipment:** Essential for enclosures in manufacturing machinery, power distribution systems, and industrial control panels, ensuring safety and reliability in industrial environments.

**Commercial Products:** Suitable for retail kiosks, display cases, and vending machines, providing durable and aesthetically pleasing enclosures for commercial applications.

## Why Choose Us?

**Quality Assurance:** We adhere to stringent quality control standards to ensure that each fabricated component meets the highest standards of quality and performance.

**Experience and Expertise:** With years of experience in sheet metal fabrication, our team brings unparalleled expertise and craftsmanship to every project, ensuring superior results.

**Customer Satisfaction:** We are committed to providing exceptional customer service and support, working closely with you to understand your needs and deliver solutions that exceed your expectations.

*Upgrade your projects with our high-quality sheet metal fabrication services. Contact us today to discuss your enclosure requirements and discover how we can bring your vision to life with precision and reliability.*
