

Machine Box Aluminum Sheet Metal Enclosure Powder Coating Custom Metal Enclosures

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Color: Customized
- Surface Finish: Natural, Plating, Powder Coating
- Material: Customized
- Shape: Customized
- Material Feature: Soft Material, Thin Material
- Mould Type: Single Tooling
- Application: Industrial
- Product Material: Metal, Steel, Alloy Steel, Aluminum, Brass
- Logo: Customized
- Size: Customized
- Highlight: machine box aluminum sheet metal enclosure, powder coating custom metal enclosures, aluminum sheet metal enclosure powder coating

Product Description

Item	Description
Product Name	Machine Box Aluminum Sheet Metal Enclosure Powder Coating Custom Metal Enclosures
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manipulator
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Precision Customized Machine Box Parts: Stainless Steel Laser Cutting and Sheet Metal Stamping Processing

Achieve unparalleled precision and durability with our precision customized machine box parts, crafted through stainless steel laser cutting and sheet metal stamping processing. Our expertise in metal fabrication ensures that each component meets your exact specifications with exceptional accuracy and reliability.

Key Features:

Stainless Steel Laser Cutting: Utilizing state-of-the-art laser cutting technology, we achieve precise and intricate cuts on stainless steel sheets, allowing for the creation of complex shapes and designs with unparalleled accuracy.

Sheet Metal Stamping: Our advanced stamping processes enable the fabrication of sheet metal components with precise dimensions and intricate details, ensuring consistency and quality across every part produced.

Customization Options: From material selection to surface finishes, we offer a wide range of customization options to meet your specific requirements and design preferences, ensuring that each component aligns perfectly with your project needs.

Quality Materials: We use high-quality stainless steel materials known for their strength, corrosion resistance, and longevity, ensuring that our machine box parts withstand the rigors of demanding applications.

Advantages of Our Service:

Precision Engineering: Our skilled craftsmen and advanced machinery ensure precise fabrication of machine box parts, meeting the strictest tolerances and quality standards for exceptional performance.

Durable and Reliable: Built to withstand the harshest environments and operating conditions, our stainless steel parts offer durability, reliability, and longevity, ensuring consistent performance over time.

Versatile Applications: Whether for industrial machinery, electronic enclosures, or automotive components, our precision parts are suitable for a wide range of applications, providing versatility and adaptability to diverse industries.

Efficient Production: With streamlined production processes and efficient workflows, we offer fast turnaround times without compromising on quality, ensuring that your project stays on schedule and within budget.

Applications:

Industrial Machinery: Ideal for fabricating components such as enclosures, brackets, and panels for industrial machinery and equipment, providing robust protection and structural support.

Electronics and Telecommunications: Suitable for electronic enclosures, server racks, and networking equipment, our

precision parts offer reliable housing and protection for sensitive electronic components.

Automotive and Aerospace: Used in automotive and aerospace applications for manufacturing engine components, structural parts, and instrument panels, ensuring precision and reliability in critical systems.

Why Choose Us?

Experience and Expertise: With years of experience in metal fabrication, we have the knowledge and expertise to deliver high-quality machine box parts that meet your exact specifications and performance requirements.

State-of-the-Art Facilities: Our modern fabrication facilities are equipped with advanced machinery and technology, allowing us to execute complex projects with precision and efficiency.

Customer-Centric Approach: We prioritize customer satisfaction and strive to exceed your expectations with every order, offering responsive communication, personalized service, and on-time delivery.

Elevate your projects with our precision customized machine box parts crafted through stainless steel laser cutting and sheet metal stamping processing. Contact us today to discuss your requirements and discover how we can help bring your vision to life with precision and reliability.
