

Small Deep Drawn Metal Stamping Aluminum Sheet Custom Stamped Metal Parts CNC

Our Product Introduction

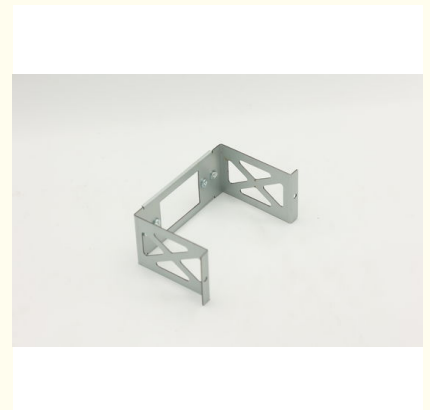

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Color: Silver Or Customized
- Surface: Galvanizing
- Sizi: Customized
- Material: Aluminum, Stainless Steel
- Tolerance: 0.01-0.05mm
- Thickness: 3 +/- .005mm, 0.5~25mm
- Item Name: Steel Stamped Part
- Highlight: **small deep drawn metal stamping, galvanizing deep drawn metal stamping, CNC custom stamped metal parts**

Product Description

Item	Description
Product Name	Small Deep Drawn Metal Stamping Aluminum Sheet Custom Stamped Metal Parts CNC
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manipulator
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Our Small Deep Drawn Metal Stamping Aluminum Sheet Custom Stamped Metal Parts CNC are crafted to meet the highest standards of quality and precision. These components are designed for various applications across industries and are manufactured using advanced techniques to ensure durability and reliability.

Key Features:

Deep Drawing Technology: Our deep drawing process allows us to create intricate and complex shapes from sheet metal, providing versatility in design and functionality.

Aluminum Sheet Metal Fabrication: We specialize in aluminum sheet metal fabrication, offering lightweight yet durable solutions for a wide range of applications.

Stainless Steel CNC Parts: Our custom CNC parts are precision-machined from stainless steel, ensuring strength, corrosion resistance, and dimensional accuracy.

Benefits:

High-Quality Materials: We use high-quality aluminum and stainless steel materials to ensure superior performance and longevity of our parts.

Versatility: Our components are suitable for various industries and applications, including automotive, aerospace, electronics, and more.

Customization: We offer customization options to meet specific design requirements, including size, shape, and surface finish.

Precision Manufacturing: Our parts are manufactured using advanced techniques and machinery to ensure precise dimensions and tight tolerances.

Applications:

Our deep drawing parts, aluminum sheet metal fabrication parts, and stainless steel custom CNC parts are widely used in automotive components, electronic enclosures, household appliances, and industrial equipment.

Why Choose Us?

Experience: With years of experience in metal fabrication and CNC machining, we have the expertise to deliver top-quality parts that meet customer requirements.

Advanced Technology: Our state-of-the-art manufacturing facilities are equipped with the latest machinery and technology to ensure efficient production and high-quality results.

Customer Satisfaction: We prioritize customer satisfaction and strive to exceed expectations with our products and services.

Quality Assurance: Our quality control processes ensure that each part meets the highest standards of quality and performance.
