

ASTM AISI Metal Spray Painting Treatment Precision Metal Stamping Bending Laser Cutting

Our Product Introduction

for more products please visit us on metalstamp-parts.com

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Surface: Mirror Polishing
- Logo: Customized
- Thickness: Customized
- Shape: Customized
- Color: Customized
- Type: Custom Metal Products
- Product: Custom Stainless Steel Stamping Part
- Standard: ASTM,AISI,BS,DIN,JIS Etc.
- Surface Treatment: Plating
- Surface Finish: Natural, Plating
- Highlight: precision metal stamping bending,
astm stamping metal parts,
astm precision metal stamping

Product Description

Item	Description
Product Name	ASTM AISI Metal Spray Painting Treatment Precision Metal Stamping Bending Laser Cutting
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Customized Metal Spray Painting Treatment, Bending, Laser Cutting, Stamping, and Manufacturing Services

Enhance the aesthetics and durability of your metal components with our comprehensive range of customized metal fabrication services. From precision bending and laser cutting to expert spray painting treatment and stamping, we offer a complete solution to meet your unique project requirements.

Key Services Offered:

Spray Painting Treatment: Transform the appearance of your metal components with our professional spray painting treatment. Our skilled technicians apply high-quality paint finishes to achieve the desired color, texture, and level of protection for your products.

Precision Bending: Our advanced bending techniques ensure accurate and uniform bending of metal sheets to create custom shapes and structures according to your specifications. Whether you need simple bends or complex geometries, we deliver precision results.

Laser Cutting: Utilizing state-of-the-art laser cutting technology, we precisely cut metal sheets with exceptional speed and accuracy. From intricate designs to large-scale production runs, our laser cutting services provide versatile solutions for your fabrication needs.

Stamping: Our stamping process allows for the creation of detailed patterns, logos, and features on metal surfaces. With precision stamping equipment and experienced operators, we deliver consistent results that meet your design requirements.

Manufacturing: Our comprehensive manufacturing capabilities encompass all aspects of metal fabrication, from initial design concepts to final production. With a focus on quality and efficiency, we ensure that each component meets the highest standards of craftsmanship and performance.

Advantages of Our Services:

Customization Options: We offer a wide range of customization options, including paint colors, surface textures, bending angles, laser cutting designs, and stamping patterns, allowing you to create unique and tailored products.

Enhanced Durability: Our spray painting treatment provides a durable protective coating that guards against corrosion, scratches, and environmental damage, ensuring the longevity of your metal components.

Precision Engineering: With our advanced fabrication techniques and quality control processes, we guarantee precise and consistent results that meet your exact specifications, every time.

Cost-Effective Solutions: Our efficient manufacturing processes and competitive pricing ensure cost-effective solutions without compromising on quality or performance.

Applications:

Architectural Elements: Ideal for architectural features, signage, and decorative elements that require both aesthetic appeal and durability.

Automotive Components: Used in automotive parts and accessories, such as body panels, trim pieces, and interior components, for custom finishes and branding.

Consumer Electronics: Suitable for electronic enclosures, casings, and bezels, providing a sleek and professional appearance for consumer electronics products.

Industrial Equipment: Essential for machinery components, control panels, and enclosures in industrial settings, offering both functionality and visual appeal.

Why Choose Us?

Experience and Expertise: With years of experience in metal fabrication, our team has the knowledge and expertise to deliver superior results that exceed your expectations.

Quality Assurance: We adhere to strict quality control standards throughout the manufacturing process to ensure that each component meets the highest standards of quality and performance.

Customer Satisfaction: We are committed to providing exceptional customer service and support, working closely with you to understand your needs and deliver solutions that meet your requirements.

Upgrade your metal components with our customized fabrication services. Contact us today to discuss your project requirements and discover how we can bring your vision to life with precision and quality craftsmanship.
