

Polishing Smooth Finish Custom Metal stamping parts NAK80 / S136 Mould Material

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Surface: Polishing
- Size: Customized
- Lead Time: Short
- Mould Material: NAK80/S136/SKD11,P20/718/738
- Customization: Available
- Process: Stamping
- Finish: Smooth
- Design: Customized
- Logo: Customized
- Material: Aluminum,Stainless Steel,SECC,Carbon Steel,SPTE
- Highlight: **custom metal stamping parts nak80, polishing auto stamping parts, polishing custom metal stamping parts**

Product Description

Item	Description
Product Name	Polishing Smooth Finish Custom Metal stamping parts NAK80 / S136 Mould Material
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manipulator
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

We specialize in the customized production of stamping metal parts, utilizing high-quality stainless steel and aluminum. Our services include precision laser cutting and bending, tailored to meet diverse industrial needs. Below are the key features and benefits of our product:

Key Features:

High-Quality Materials: We use premium-grade stainless steel and aluminum, ensuring excellent durability, strength, and corrosion resistance.

Precision Stamping: Our advanced stamping techniques produce parts with high accuracy and consistency, suitable for a variety of applications.

Laser Cutting: Utilizing state-of-the-art laser cutting technology, we achieve precise and intricate cuts, ensuring clean edges and high-quality finishes.

Bending Services: Our precision bending services enable us to create complex shapes and angles, meeting exact specifications and design requirements.

Customization: We offer fully customized manufacturing solutions, allowing clients to specify dimensions, shapes, materials, and finishes.

Benefits:

Durability and Strength: Our stamped metal parts are built to withstand heavy use and harsh conditions, making them ideal for demanding industrial environments.

High Precision and Accuracy: Advanced equipment and skilled technicians ensure each part is manufactured to the highest standards of precision and accuracy.

Versatile Applications: Suitable for a wide range of applications, our parts can be used in various industries, from automotive to electronics and beyond.

Customization Options: We provide complete customization services, ensuring that the final product meets your exact requirements and specifications.

Applications:

Automotive Industry: Custom stamped and precision-cut parts for vehicle manufacturing and assembly, including brackets, mounts, and panels.

Electronics: Precision metal parts for electronic enclosures, heat sinks, and component housings.

Industrial Machinery: Durable and accurately manufactured parts for various types of machinery and equipment.

Construction: Custom metal components for building and construction applications, offering strength and durability.

Why Choose Us?

Expertise and Experience: With extensive experience in metal stamping and fabrication, we deliver high-quality products that meet stringent industry standards.

Advanced Technology: Our facilities are equipped with the latest laser cutting and bending machinery, ensuring efficient and precise production.

Customer-Centric Approach: We prioritize customer satisfaction, providing exceptional service from initial consultation to final production and delivery.
