

Stainless Steel Stamped Metal Brackets Aluminum Custom Metal Bracket Fabrication

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Corrosion Resistance: Yes
- Size: Various Sizes Available
- Finish: Polished
- Installation Method: Screw-in
- Material: Metal
- Usage: Supporting Structures
- Color: Customized
- Durability: Long-lasting
- Weight Capacity: Depends On Size And Material
- Highlight: **Stainless Steel Stamped Metal Brackets, Aluminum Custom Metal Bracket Fabrication, Aluminum Stamped Metal Brackets**

Product Description

Item	Description
Product Name	Stainless Steel Stamped Metal Brackets Aluminum Custom Metal Bracket Fabrication
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

We are dedicated to providing customized precision laser cutting and stamping services for stainless steel and aluminum sheet metal bracket parts. Our advanced manufacturing techniques ensure high-quality, durable, and precise components tailored to meet the specific requirements of various industries. Below are additional features and benefits of our product:

Key Features:

Superior Material Selection: We use high-grade stainless steel and aluminum to ensure excellent performance, durability, and resistance to environmental factors.

High Precision Laser Cutting: Our laser cutting technology delivers exact cuts with minimal burrs, ensuring smooth edges and intricate detail for complex shapes.

Efficient Stamping Process: Our stamping process is highly efficient, producing consistent and high-quality bracket parts suitable for large-scale production runs.

Full Customization: We provide a wide range of customization options, including size, shape, material thickness, and finishing to meet the specific needs of your project.

Secondary Processing: In addition to cutting and stamping, we offer secondary processing services such as bending, welding, and surface treatments to provide a complete solution.

Benefits:

Enhanced Durability: The use of high-quality stainless steel and aluminum ensures that our bracket parts can withstand harsh environments and heavy use.

Precision and Accuracy: Our advanced technology ensures that every part is manufactured with precise dimensions and consistent quality, reducing the need for post-processing adjustments.

Versatility: Our bracket parts are designed to serve a variety of applications across multiple industries, from automotive and aerospace to electronics and construction.

Streamlined Production: Our efficient manufacturing processes allow for rapid production times and consistent output, ensuring that your parts are delivered on schedule.

Applications:

Automotive Industry: Custom brackets for mounting, supporting, and reinforcing vehicle components, including engine mounts and suspension parts.

Aerospace: Precision brackets for aircraft and spacecraft assemblies, providing reliable support and structural integrity.

Electronics: Metal brackets for securing and supporting electronic devices, enclosures, and circuit boards.

Construction: Bracket parts for building frameworks, HVAC systems, and structural supports in construction projects.

Additional Services:

Design and Prototyping: We offer design assistance and prototyping services to help you develop and refine your bracket parts before full-scale production.

Surface Treatments: We provide a variety of surface treatments, including anodizing, powder coating, and galvanizing, to enhance the appearance and durability of your parts.

Quality Assurance: Rigorous quality control processes ensure that every part meets your specifications and industry standards.

Why Choose Us?

Advanced Manufacturing Capabilities: Our state-of-the-art equipment and skilled workforce ensure high-quality production and innovative solutions.

Tailored Solutions: We work closely with our clients to understand their specific needs and provide customized solutions that exceed expectations.

Reliability and Efficiency: Our commitment to excellence and efficient production processes ensure that your parts are delivered on time and to the highest standards.

Comprehensive Support: From initial consultation and design to final production and delivery, we provide comprehensive support throughout the entire manufacturing process.
