

Professional hardware stamping manufacturer for copper aluminum composite metal stamping parts

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Features: High Strength, Corrosion Resistance
- Application: Automotive, Machinery, Etc.
- Thickness: 0.5mm-10mm
- Process: Stamping
- Material: Copper Or Customized
- Size: Customized
- Highlight: professional copper stamping parts,
professional aluminium stamping parts,
stainless steel copper stamping parts

Product Description

Item	Description
Product Name	Professional hardware stamping manufacturer for copper aluminum composite metal stamping parts
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manipulator
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Elevate your projects with our professional OEM metal stamping services, specializing in copper, aluminum, and stainless steel parts. As a trusted manufacturer, we offer high-quality stamped and welded sheet metal parts tailored to your specific needs, ensuring precision, durability, and reliability.

Advanced Metal Stamping and Welding Services:

Benefit from our state-of-the-art manufacturing processes, including precision metal stamping and welding, to produce a wide range of sheet metal parts. With our advanced technology and skilled workforce, we guarantee high precision, consistency, and adherence to stringent quality standards for every component.

Key Features:

Multi-Material Expertise: Utilize our expertise in working with various materials, including copper, aluminum, and stainless steel, to produce components that meet the diverse needs of your projects.

Precision Stamping: Achieve exact dimensions and intricate designs with our precision stamping services. Our advanced equipment ensures accuracy and consistency for every stamped part, regardless of complexity.

Welding Capabilities: Benefit from our welding capabilities to create sturdy and reliable assemblies, ensuring structural integrity and longevity for your sheet metal parts.

Customization: Our OEM manufacturing services enable us to meet your specific design requirements. We offer a range of customization options, including different materials, shapes, sizes, and surface treatments.

Applications:

Electrical Components: Perfect for creating connectors, terminals, and other electrical components requiring precise engineering and reliable conductivity.

Automotive Parts: Ideal for producing custom automotive parts such as brackets, mounts, and chassis components, ensuring durability and performance in demanding environments.

Industrial Machinery: Suitable for manufacturing components in industrial machinery such as enclosures, panels, and brackets, ensuring robust construction and reliable performance.

Renewable Energy Systems: Essential for components in renewable energy systems such as frames, brackets, and mounting hardware, ensuring stability and efficiency in energy generation and distribution.

Consumer Electronics: Reliable for various consumer electronics applications requiring high-quality, precision-engineered parts, ensuring optimal performance and durability.

Customization Options:

Design Flexibility: Provide tailored solutions to meet your unique design requirements, including custom dimensions, shapes, and configurations.

Surface Treatments: Enhance the performance and appearance of your parts with various surface treatments such as plating, coating, and finishing.

Prototype to Production: Support your project from initial prototype development to full-scale production, ensuring each component is optimized for performance and quality.

Why Choose Us?

Experience and Expertise: With years of experience in OEM metal stamping and welding, we are a trusted partner for high-quality sheet metal parts.

Advanced Technology: Utilize state-of-the-art equipment and advanced manufacturing processes to deliver precision components that meet the highest standards.

Quality Assurance: Implement rigorous quality control measures at every stage of production to ensure our products meet industry standards and your specific requirements.

Customer Satisfaction: Committed to delivering exceptional customer service, timely delivery, and competitive pricing to support your projects effectively.

Upgrade your projects with our professional OEM metal stamping and welding services. Contact us today to discuss your requirements and discover how our advanced solutions can enhance the performance and reliability of your products.
