

## Customized bending and stamping engineering, shell box processing, parts welding services, stainless steel and aluminum

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

#### Product Specification

- Color: Silver Or Customized
- Corrosion Resistance: Yes
- Material: SPCC-SD
- Durability: High
- Usage: ATM Machines
- Size: Standard
- Precision: High
- Highlight: **customized sheet metal enclosure,  
customized sheet metal fabrication,  
aluminum sheet metal enclosure**

## Product Description

Item	Description
Product Name	Customized bending and stamping engineering, shell box processing, parts welding services, stainless steel and aluminum
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manipulator
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

*Elevate the performance and durability of your ATM systems with our customized bending and stamping engineering, shell box processing, parts welding services, tailored for stainless steel and aluminum components. As a trusted provider of ATM components, we specialize in delivering high-quality solutions meticulously engineered to meet your specific requirements.*

### **Precision Bending and Stamping Engineering:**

*Our customized bending and stamping engineering services ensure precise shaping and forming of stainless steel and aluminum components. From intricate designs to robust enclosures, each part is meticulously crafted to exact specifications, ensuring optimal fit and functionality in ATM systems.*

### **Expert Shell Box Processing:**

*With our expertise in shell box processing, we manufacture durable enclosures and housing for ATM components. Using advanced techniques and machinery, we ensure seamless integration and protection of internal components, enhancing the reliability and longevity of ATM systems.*

### **Professional Parts Welding Services:**

*Our parts welding services provide secure and durable connections for stainless steel and aluminum components. Expert welders meticulously join parts to ensure structural integrity and resistance to environmental factors, ensuring reliable performance in demanding ATM environments.*

### **High-Quality Stainless Steel and Aluminum Materials:**

*Crafted from premium stainless steel and aluminum materials, our components offer superior strength, corrosion resistance, and longevity. Whether it's enclosures, fascias, or internal components, our stainless steel and aluminum parts are engineered for durability and reliability in ATM systems.*

### **Rigorous Quality Control Measures:**

*Quality is our top priority, and we adhere to stringent quality control measures throughout the manufacturing process. Each component undergoes comprehensive inspection and testing to ensure compliance with industry standards, guaranteeing reliability and durability in ATM systems.*

### **Customization Tailored to Your Requirements:**

*We understand the importance of customization in meeting your specific needs. Our team works closely with you to*

*understand your requirements and preferences, offering flexible customization options for dimensions, designs, and finishes. This ensures that each component meets your expectations and integrates seamlessly into your ATM systems.*

**Trusted Provider of ATM Components:**

*As a trusted provider of ATM components, we are committed to delivering exceptional products and services that exceed customer expectations. With our customized bending and stamping engineering, shell box processing, and parts welding services, you can trust us to provide reliable solutions for your ATM systems.*

*Upgrade your ATM systems with our precision-engineered stainless steel and aluminum components. Contact us today to discuss your requirements and discover how our solutions can enhance the performance and reliability of your ATM machines.*
