

Customized ATM Parts Hardware Stamping Riveting And Assembly Parts Processing Services

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Color: Silver Or Customized
- Corrosion Resistance: Yes
- Material: SUS304-CP-2B
- Rivet Material: SUM22D
- Durability: High
- Usage: ATM Machines
- Size: Customized
- Precision: High
- Highlight: Customized ATM Parts Hardware,
ATM Parts Hardware Stamping Riveting,
ATM Hardware Assembly Parts

Product Description

Item	Description
Product Name	Customized ATM Parts Hardware Stamping Riveting And Assembly Parts Processing Services
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling,Forming, threading,welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks,Pro/Engineer,Auto CAD,PDF,JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Transform your ATM systems with our comprehensive range of customized processing services for ATM parts. With precision engineering and meticulous attention to detail, we specialize in hardware stamping, riveting, and assembly, offering tailored solutions to meet the unique requirements of your projects.

Precision Engineering Excellence:

At our state-of-the-art facility, we employ cutting-edge technology and advanced techniques to ensure the highest standards of precision engineering. Each component undergoes thorough scrutiny, from design to production, guaranteeing flawless alignment, compatibility, and functionality with ATM equipment.

Diverse Material Expertise:

We work with a wide range of materials, including stainless steel, aluminum, and other alloys, providing versatility to meet your specific project needs. Our expertise in material selection ensures optimal performance, durability, and resistance to environmental factors, ensuring longevity in demanding ATM environments.

Rigorous Quality Assurance:

Quality is at the forefront of everything we do. Our rigorous quality assurance processes encompass comprehensive inspection and testing, adhering to stringent industry standards. This commitment to quality ensures that every component meets or exceeds expectations for performance, reliability, and durability.

Tailored Customization Options:

With a focus on customization flexibility, we offer a plethora of options for size, shape, material, and finish, allowing you to tailor each component to your exact project requirements and design preferences. Whether it's a specific size requirement or a unique aesthetic, we have the capabilities to bring your vision to life.

Cost-Effective Solutions:

We understand the importance of delivering cost-effective solutions without compromising on quality. Through efficient manufacturing processes and optimized workflows, we offer competitive pricing and quick turnaround times, ensuring that your project stays within budget and on schedule.

Expert Support and Guidance:

Our team of skilled technicians and engineers are dedicated to providing expert support and guidance at every stage of your project. From initial consultation to post-installation support, we are committed to your satisfaction and project success, offering valuable insights and recommendations along the way.

Applications Across Industries:

Our customized processing services cater to a diverse range of industries and applications, with a particular focus on ATM systems. Whether it's enclosures, fascias, card readers, cash dispensers, or other components, our solutions are designed to enhance the performance, reliability, and efficiency of ATM machines.

Upgrade your ATM systems with our customized processing services for ATM parts. Contact us today to discuss your requirements and discover how our high-quality solutions can elevate your projects to new heights of excellence.
