

SECC-QS1 Processing Of Metal ATM Parts Stainless Steel Hardware Stamping

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Color: Silver Or Customized
- Corrosion Resistance: Yes
- Material: SECC-QS1
- Durability: High
- Usage: ATM Machines
- Size: Customized
- Precision: High
- Highlight: **Processing Of Metal ATM Parts,
Stainless Steel Hardware Stamping,
SECC-QS1 Metal ATM Parts**

Product Description

Item	Description
Product Name	SECC-QS1 Processing Of Metal ATM Parts Stainless Steel Hardware Stamping
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling,Forming, threading,welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks,Pro/Engineer,Auto CAD,PDF,JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Customized processing of metal ATM parts, stainless steel hardware stamping, self spot welding and forming parts

Upgrade your ATM systems with our customized metal processing solutions, meticulously crafted to meet your precise specifications. Our comprehensive services include the processing of metal ATM parts, stainless steel hardware stamping, self-spot welding, and forming, providing versatile solutions for enhancing functionality and durability in banking environments.

Key Features:

Customized Solutions: Tailored to your exact requirements, our metal processing services ensure precise alignment, compatibility, and functionality with ATM equipment, guaranteeing seamless integration and reliable performance.

Advanced Techniques: Utilizing state-of-the-art equipment and techniques, including stainless steel hardware stamping, self-spot welding, and forming, we deliver high-quality components with superior precision and durability.

Diverse Applications: Our solutions cater to various ATM components, including enclosures, fascias, card readers, cash dispensers, and more, offering versatile options for enhancing product performance and aesthetics.

Quality Assurance: Manufactured under strict quality control measures, our parts undergo thorough inspection and testing to meet the highest industry standards for performance and reliability.

Cost-Effective Solutions: We offer competitive pricing and flexible manufacturing options, providing cost-effective solutions for projects of any scale without compromising on quality.

Advantages:

Reliability and Durability: Built to withstand the demands of ATM environments, our metal processing solutions deliver reliable operation and longevity, minimizing maintenance costs and downtime.

Customization Flexibility: Enjoy a range of customization options for size, shape, material, and finish, allowing you to tailor our components to your specific project requirements and design preferences.

Expert Engineering: Backed by our team of skilled engineers and technicians, we ensure precision engineering and meticulous attention to detail in every component we produce.

Versatility: Our solutions are versatile and suitable for a wide range of ATM systems and applications, offering flexibility and adaptability to meet diverse customer needs.

Quick Turnaround: With efficient manufacturing processes and streamlined workflows, we offer quick turnaround times to meet project deadlines and requirements.

Applications:

ATM Systems: Our customized metal processing solutions are specifically designed for ATM systems, offering reliable operation, compatibility, and performance across various ATM components.

Get in Touch:

Upgrade your ATM systems with our customized metal processing solutions. Contact us today to discuss your requirements and explore how our high-quality components can enhance the performance, reliability, and aesthetics of your ATM machines.
