

## Metal Stamping Parts Customized ATM Sheet Metal Manufacturing Bending

Our Product Introduction

### Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

### Product Specification

- Corrosion Resistance: Yes
- Material: Stainless Steel Aluminum, Copper, Brass, SPCC-SD(according To Customer's Requirements)
- Surface Treatment: Galvanized, Nickel, Chrome-plated, Polishing, Spraying, Anodizing, Etc.
- Usage: ATM Machines
- Thickness: 0.5mm~12mm
- Precision: High
- Highlight: Customized Metal Stamping Parts, Sheet Metal Manufacturing Bending, ATM Sheet Metal Manufacturing

## Product Description

Item	Description
Product Name	Metal Stamping Parts Customized ATM Sheet Metal Manufacturing Bending
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, cnc machining, CNC Milling
Material	Stainless steel Aluminum, copper, brass, SPCC-SD(according to customer's requirements)
Surface Treatment	Galvanized, nickel, chrome-plated, Polishing, Spraying, Anodizing, etc.
Packaging	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

*Enhance your projects with our customized metal stamping parts and sheet metal manufacturing solutions, meticulously crafted to meet your specifications. Our comprehensive services include precision metal stamping, sheet metal bending, and stainless steel plate manufacturing, providing versatile solutions for a wide range of applications.*

### Key Features:

**Customized Solutions:** Tailored to your exact requirements, our metal stamping parts and sheet metal manufacturing services ensure precise alignment, compatibility, and functionality with your projects.

**Advanced Techniques:** Utilizing state-of-the-art equipment and techniques, including metal stamping, bending, and stainless steel plate manufacturing, we deliver high-quality components with superior strength, durability, and precision.

**Diverse Applications:** Our solutions cater to various industries and applications, including automotive, electronics, aerospace, and more, offering versatile options for enhancing product performance and aesthetics.

**Quality Assurance:** Manufactured under strict quality control measures, our parts undergo thorough inspection and testing to meet the highest industry standards for performance and reliability.

**Cost-Effective Solutions:** We offer competitive pricing and flexible manufacturing options, providing cost-effective solutions for projects of any scale without compromising on quality.

### Advantages:

**Reliability and Durability:** Built to withstand the demands of diverse applications, our metal stamping parts and sheet metal solutions deliver reliable operation and longevity, minimizing maintenance costs and downtime.

**Customization Flexibility:** Enjoy a range of customization options for size, shape, material, and finish, allowing you to tailor our components to your specific project requirements and design preferences.

**Expert Engineering:** Backed by our team of skilled engineers and technicians, we ensure precision engineering and meticulous attention to detail in every component we produce.

**Versatility:** Our solutions are versatile and suitable for a wide range of projects, offering flexibility and adaptability to meet diverse customer needs.

**Quick Turnaround:** With efficient manufacturing processes and streamlined workflows, we offer quick turnaround times to meet project deadlines and requirements.

### Applications:

**Automotive:** Our metal stamping parts and sheet metal solutions are commonly used in automotive components, including chassis, brackets, panels, and more.

**Electronics:** We provide customized solutions for electronics enclosures, panels, brackets, and other components, ensuring compatibility and performance in electronic devices.

**Aerospace:** Our precision metal parts are utilized in aerospace applications, including aircraft components, structural parts, and assemblies, meeting strict industry requirements for quality and reliability.

### Get in Touch:

*Transform your projects with our customized metal stamping parts and sheet metal manufacturing solutions. Contact us today to discuss your requirements and explore how our high-quality components can enhance the performance and reliability of your products.*
