

ATM Parts Nickel Plated Hardware Precision Customized Stamping Riveting Assembly

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Material: Stainless Steel Aluminum, Copper, SPCC-SD, SUM22D (according To Customer's Requirements)
- Rivet Material: SUM22D
- Durability: High
- Usage: ATM Machines
- Thickness: 0.5mm~12mm
- Application: Automobiles, Machinery
- Highlight: **Precision Customized ATM Parts, ATM Parts Nickel Plated, Nickel Plated Hardware Stamping Riveting**

Product Description

Item	Description
Product Name	ATM Parts Nickel Plated Hardware Precision Customized Stamping Riveting Assembly
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	Stainless steel Aluminum, copper, SPCC-SD, SUM22D (according to customer's requirements)
Surface Treatment	Galvanized, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, E-coating, etc.
Application	Automobiles, machinery
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Elevate your ATM systems with our precision-customized parts, meticulously crafted from nickel-plated hardware using stamping and riveting assembly techniques. These high-quality components offer superior durability, functionality, and aesthetic appeal, ensuring optimal performance in banking environments.

Key Features:

Precision Customization: Tailored to your exact specifications, our parts undergo precision customization to ensure seamless integration and reliable performance in ATM equipment.

Nickel-Plated Hardware: Crafted from premium nickel-plated hardware, our components boast excellent corrosion resistance, durability, and aesthetics, ideal for prolonged use in banking environments.

Stamping and Riveting Assembly: Engineered with advanced stamping and riveting assembly techniques, our parts ensure precise alignment, robust construction, and dependable performance in ATM systems.

Superior Durability: Built to withstand the rigors of ATM environments, our components offer exceptional durability and longevity, minimizing maintenance costs and downtime.

Aesthetic Appeal: With their nickel-plated finish, our parts provide a sleek and professional appearance, enhancing the overall aesthetics of ATM machines.

Advantages:

Reliability and Performance: Our parts deliver reliable operation and optimal performance, meeting the demanding requirements of ATM systems in banking environments.

Customization Options: Enjoy flexibility with a range of customization options for size, shape, and finish, allowing you to tailor our components to your specific project needs and design preferences.

Cost-Effective Solutions: Benefit from competitive pricing and bulk ordering options, providing cost-effective solutions for ATM equipment manufacturers and banking institutions.

Easy Installation: Designed for hassle-free installation, our components come with pre-drilled holes and mounting hardware, facilitating quick setup and reducing installation time.

Quality Assurance: Backed by stringent quality control measures, our components undergo thorough inspection and testing to ensure consistent performance and customer satisfaction.

Applications:

ATM Systems: Our precision-customized parts are specifically designed for ATM systems, including enclosures, fascias, card readers, cash dispensers, and more, ensuring reliable operation and compatibility with leading ATM brands.

Get in Touch:

Upgrade your ATM systems with our precision-customized nickel-plated hardware. Contact us today to discuss your requirements and discover how our high-quality stamping and riveting assembly products can enhance the performance and aesthetics of your ATM machines.
