ATM Precision Stamp Parts Stainless Aluminum SPCC-SD Hardware Stamping Riveting

Basic Information

- Place of Origin:
- Minimum Order Quantity: 1000
- Price:
- Delivery Time:
- Payment Terms:
- Supply Ability:

3000+pcs+Month

China

Product Specification

Corrosion Resistance:	Yes
 Material: 	SPCC-SD
Rivet Material:	SUM22D
 Durability: 	High
• Usage:	ATM Machines
• Size:	Customized
Precision:	High
• Highlight:	ATM Precision Stamp Parts, Stainless ATM Precision Stamp, SPCC-SD Hardware Stamping Riveting

Our Product Introduction

Product Description

Item	Description
Product Name	ATM Precision Stamp Parts Stainless Aluminum SPCC-SD Hardware Stamping Riveting
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E- coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks,Pro/Engineer,Auto CAD,PDF,JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Elevate your ATM systems with our professional factory's customized precision hardware solutions, crafted from high-quality stainless steel, aluminum, and SPCC-SD (Cold Rolled Steel) materials. Utilizing advanced stamping, riveting, and assembly techniques, these components ensure seamless integration and optimal functionality in banking environments.

Key Features:

Customized Precision Solutions: Tailored to your exact specifications, our hardware solutions guarantee precise alignment, compatibility, and functionality with ATM equipment.

Diverse Material Options: Manufactured from premium stainless steel, aluminum, and SPCC-SD materials, our components offer superior strength, durability, and corrosion resistance, ideal for ATM systems.

Advanced Manufacturing Techniques: Utilizing state-of-the-art stamping, riveting, and assembly processes, our components are engineered for secure installation, stability, and long-lasting performance.

Professional Factory Production: Backed by our skilled technicians and modern facilities, we ensure the highest quality standards and meticulous attention to detail in every component.

Cost-Effective Solutions: Our hardware solutions provide cost-effective options for ATM equipment manufacturers and banking institutions, delivering excellent value without compromising on quality.

Advantages:

Reliability and Durability: Built to withstand the rigorous demands of ATM environments, our precision hardware solutions deliver reliable operation and longevity, minimizing maintenance costs and downtime.

Customization Flexibility: Enjoy a range of customization options for size, shape, and finish, allowing you to tailor our components to your specific project requirements and design preferences.

Ease of Installation: Designed for hassle-free installation, our components come with pre-drilled holes and mounting hardware, facilitating quick setup and reducing installation time.

Quality Assurance: Our components undergo rigorous quality control measures, including inspection and testing, to ensure consistent performance and customer satisfaction.

Versatility: Suitable for various ATM systems and applications, our hardware solutions offer versatile options for enhancing functionality and aesthetics.

Applications:

ATM Systems: Our precision hardware solutions are specifically designed for ATM systems, including enclosures, fascias, card readers, cash dispensers, and more, ensuring reliable operation and compatibility with leading ATM brands.

Get in Touch:

Upgrade your ATM systems with our customized precision hardware solutions. Contact us today to discuss your requirements and discover how our high-quality components can enhance the performance, reliability, and aesthetics of your ATM
