

ATM Precision Stainless Steel Aluminum Hardware Stamping And Riveting Parts

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Material: Stainless Steel Aluminum, Brass, SECC-QS1 (according To Customer's Requirements)
- Rivet Material: SUM22D
- Durability: High
- Usage: ATM Machines
- Thickness: 0.5mm~12mm
- Precision: High
- Highlight: **ATM Precision Riveting Parts, Aluminum Hardware Stamping, Stainless Steel Riveting Parts**

Product Description

Item	Description
Product Name	ATM Precision Stainless Steel Aluminum Hardware Stamping And Riveting Parts
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling,Forming, threading,welding, tapping, riveting, cnc machining
Material	Stainless steel Aluminum, brass, SECC-QS1,SUM22D(according to customer's requirements)
Surface Treatment	Galvanized, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, Welding Manapulator
File Format	Solidworks,Pro/Engineer,Auto CAD,PDF,JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Elevate the performance and durability of your ATM systems with our wholesale-priced, factory-customized hardware solutions crafted from precision stainless steel and aluminum. Utilizing advanced stamping, riveting, and assembly techniques, these high-quality components ensure seamless integration and optimal functionality in banking environments.

Key Features:

Wholesale Pricing: Benefit from cost-effective solutions with our wholesale pricing options, ideal for bulk orders and large-scale projects without compromising on quality.

Factory Customization: Our hardware solutions are tailored to your exact specifications, ensuring precise alignment, compatibility, and functionality with ATM equipment.

Precision Engineering: Crafted with meticulous attention to detail, our components offer exceptional strength, reliability, and longevity, meeting the highest industry standards for performance and durability.

Stainless Steel and Aluminum Construction: Manufactured from premium stainless steel and aluminum materials, our parts exhibit superior corrosion resistance, durability, and aesthetics, ideal for ATM systems.

Stamping, Riveting, and Assembly: Utilizing advanced techniques, our components are engineered for secure assembly, stability, and reliability in ATM machines, ensuring long-lasting performance.

Advantages:

Reliability and Durability: Built to withstand the demanding requirements of ATM environments, our hardware solutions deliver reliable operation and longevity, minimizing maintenance costs and downtime.

Customization Options: Enjoy flexibility with a range of customization options for size, shape, and finish, allowing you to tailor our components to your specific project needs and design preferences.

Cost-Effective Solutions: Our wholesale pricing options provide cost-effective solutions for ATM equipment manufacturers and banking institutions, helping you achieve your project goals within budget.

Quick Installation: Designed for hassle-free installation, our components come with pre-drilled holes and mounting hardware, facilitating quick setup and reducing installation time.

Quality Assurance: Backed by stringent quality control measures, our parts undergo thorough inspection and testing to ensure consistent performance and customer satisfaction.

Applications:

ATM Systems: Our precision stainless steel and aluminum hardware solutions are specifically designed for ATM systems, including enclosures, fascias, card readers, cash dispensers, and more, ensuring reliable operation and compatibility with leading ATM brands.

Get in Touch:

Upgrade your ATM systems with our wholesale-priced, factory-customized hardware solutions. Contact us today to discuss your requirements and discover how our precision-engineered stamping, riveting, and assembly components can enhance the performance and reliability of your ATM machines.
