

Stainless Steel ATM Hardware Stamping Self Spot Welding Frame Components

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Material: SECC-QS1
- Durability: High
- Usage: ATM Machines
- Size: Customized
- Application: Automobiles, Transportation, Furniture, Machinery, Electronic & Electric Appliance
- Surface Treatment: Galvanized, Zinc, Nickel, Chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, E-coating, Etc.
- Highlight: **ATM Hardware Stainless Steel Stamping, ATM Hardware Self Spot Welding, ATM Frame Components**

Product Description

Item	Description
Product Name	Stainless Steel ATM Hardware Stamping Self Spot Welding Frame Components
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling,Forming, threading,welding, tapping, riveting, cnc machining
Material	carbon steel, Stainless steel Aluminum, copper, SECC-QS1(according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Transportation, Furniture, machinery, electronic & electric appliance
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks,Pro/Engineer,Auto CAD,PDF,JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

Upgrade your ATM hardware with our professional factory's wholesale-priced, customized stainless steel components. Crafted with precision using stamping and self-spot welding techniques, these frame components offer superior durability, functionality, and affordability, ensuring optimal performance in banking environments.

Key Features:

Professional Factory Manufacturing: Our components are expertly manufactured in our state-of-the-art facility, ensuring superior quality, precision, and consistency in every piece.

Wholesale Pricing: Benefit from cost-effective solutions with our wholesale pricing options, ideal for bulk orders and large-scale projects.

Customized Design: Tailor our components to your exact specifications with a range of customization options for size, shape, and finish, ensuring seamless integration into your ATM hardware.

Stainless Steel Construction: Crafted from high-quality stainless steel, our components offer exceptional strength, corrosion resistance, and longevity, suitable for prolonged use in banking environments.

Stamping and Self-Spot Welding: Utilizing advanced stamping and self-spot welding techniques, our components are engineered for precise assembly, robust construction, and reliable performance in ATM systems.

Advantages:

Reliability and Durability: Built to withstand the demanding requirements of ATM environments, our components deliver reliable operation and longevity, minimizing downtime and maintenance costs.

Customization Options: Enjoy flexibility with a range of customization options, allowing you to tailor our components to your specific project needs and design preferences.

Cost-Effective Solutions: Our wholesale pricing options provide cost-effective solutions for ATM equipment manufacturers and banking institutions, ensuring excellent value without compromising on quality.

Easy Installation: Designed for hassle-free installation, our components come with pre-drilled holes and mounting hardware, facilitating quick setup and reducing installation time.

Quality Assurance: Backed by stringent quality control measures, our components undergo thorough inspection and testing to ensure consistent performance and customer satisfaction.

Applications:

ATM Systems: Our stainless steel components are specifically designed for ATM systems, including enclosures, fascias, card readers, cash dispensers, and more, ensuring reliable operation and compatibility with leading ATM brands.

Get in Touch:

Upgrade your ATM hardware with our wholesale-priced, customized stainless steel components. Contact us today to discuss your requirements and discover how our high-quality frame components can enhance the performance and reliability of your ATM systems.
