

Galvanized Sheet Precision Customized ATM Parts Stamping Riveting Assembly Parts

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Material: SECC-QS1
- Rivet Material: SUM22D
- Usage: ATM Machines
- Size: Customized
- Precision: High
- Thickness: 0.5mm~12mm
- Highlight: **Precision Customized ATM Parts,
ATM Parts Galvanized Sheet Metal Stamping,
ATM Parts Riveting Assembly**

Product Description

| Item | Description |
|-------------------|--|
| Product Name | Galvanized Sheet Precision Customized ATM Parts Stamping Riveting Assembly Parts |
| Working Process | Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling |
| Material | carbon steel, Stainless steel Aluminum, SECC-QS1, SUM22D (according to customer's requirements) |
| Surface Treatment | Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc. |
| Packing | Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case |
| Application | Automobiles, Construction, Transportation, machinery, electronic & electric appliance, Agricultural Equipments |
| Equipments | stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manipulator |
| Thickness | 0.5mm~12mm |
| File Format | Solidworks, Pro/Engineer, Auto CAD, PDF, JPG |
| Service | Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions. |
| Inspection | 100% QC as to each products |

Elevate the performance and durability of your ATM systems with our precision-customized parts, meticulously crafted from galvanized sheet metal using stamping and riveting assembly techniques. These high-quality components offer exceptional reliability, compatibility, and functionality, ensuring optimal operation in banking environments.

Key Features:

Precision Customization: Our parts are tailored to meet your exact specifications and requirements, ensuring seamless integration and reliable performance in ATM equipment.

Galvanized Sheet Metal Construction: Manufactured from premium galvanized sheet metal, our parts exhibit superior corrosion resistance, durability, and longevity, suitable for prolonged use in banking environments.

Stamping and Riveting Assembly: Utilizing advanced stamping and riveting assembly processes, our parts are engineered to deliver precise alignment, robust construction, and dependable performance in ATM systems.

Superior Quality: Engineered with meticulous attention to detail, our parts undergo rigorous quality control measures to ensure consistency, reliability, and durability, meeting the highest industry standards.

Compatibility: Designed to meet the specifications of leading ATM brands, our parts offer broad compatibility and versatility for various banking applications.

Advantages:

Reliability and Durability: Built to withstand the demanding requirements of ATM environments, our parts deliver reliable operation and longevity, minimizing downtime and maintenance costs.

Customization Options: Benefit from a range of customization options, including size, shape, and finish, allowing you to tailor our parts to your specific project needs and design preferences.

Cost-Effective Solutions: With competitive pricing and bulk ordering options, our parts provide cost-effective solutions for ATM equipment manufacturers and banking institutions.

Easy Installation: Designed for hassle-free installation, our parts come with pre-drilled holes and mounting hardware, facilitating quick setup and reducing installation time.

Quality Assurance: Backed by our commitment to quality, our parts undergo thorough inspection and testing to ensure consistent performance and customer satisfaction.

Applications:

ATM Systems: Our precision-customized parts are specifically designed for ATM systems, including enclosures, fascias, card readers, cash dispensers, and more, ensuring reliable operation and compatibility with leading ATM brands.

Get in Touch:

Upgrade your ATM equipment with our precision-customized galvanized sheet metal stamping and riveting assembly parts. Contact us today to discuss your requirements and discover how our high-quality components can enhance the performance and reliability of your ATM systems.
