#### Sheet Metal Bracket

- Steel , Iron ,Stainless Steel, Aluminum, Brass, Copper Etc.
- Stamping, Deep Drawing, Laser Cutting,Bending, Welding, CNC Etc
  - Zinc Plating, Nickel Plating, Powder Coated , Paint ,Brushed Etc
  - +/-0.002~+/-0.005mm
- : ISO9001:2015, ISO13485:2016, RoHs, TUV
- ce: Customize ODM OEM
  - OEM C Shaped Metal Brackets, Deep Drawing Custom Metal Brackets, OEM Custom Metal Brackets

### **Product Description**

Item	Description
Product Name	OEM C Shaped Metal Brackets Metal Iron Deep Drawing Custom Metal Brackets
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E- coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks,Pro/Engineer,Auto CAD,PDF,JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

#### **Detailed Features:**

#### **High-Quality Materials:**

Iron: Durable and robust, suitable for heavy-duty applications.Stainless Steel: Corrosion-resistant and strong, ideal for environments requiring high durability.Aluminium: Lightweight and corrosion-resistant, perfect for applications where weight is a concern.

#### **Precision Laser Cutting:**

Provides highly accurate cuts with smooth edges. Capable of intricate designs and complex shapes. Reduces material waste and increases efficiency.

# **Custom Bending:**

Achieves precise angles and radii for complex parts. Maintains structural integrity and strength. Allows for the creation of custom shapes and configurations.

# **Advanced Surface Finishes:**

Polishing and Brushing: Enhance the aesthetic appeal and smoothness of the parts. Anodizing and Powder Coating: Provide additional protection against corrosion and wear. Electroplating: Improve durability and environmental resistance.

### **Special Features:**

Custom Perforations: Holes, slots, and patterns tailored to specific requirements.Threading: Accurate threading for screws and fasteners.Welding and Assembly: High-quality welding and assembly for integrated solutions.

### **Quality Assurance:**

**Inspection:** Thorough quality checks at each stage of production. **Certifications:** Compliance with industry standards and certifications. Testing: Mechanical and environmental testing to ensure reliable performance.

#### **Applications:**

Automotive: Brackets and supports for vehicle components.
Electronics: Enclosures and mounts for electronic devices.
Construction: Structural brackets and supports.
Aerospace: Precision parts for aircraft and spacecraft.
Industrial Equipment: Custom brackets and components for machinery.

#### Why Choose Our Services:

Expertise: Extensive experience in OEM sheet metal processing.
Customization: Tailored solutions to meet specific project requirements.
Technology: Advanced laser cutting and bending machinery for precision and efficiency.
Quality: Commitment to delivering high-quality, reliable parts.
Customer Service: Dedicated support from design consultation to final delivery.
