

## Stainless Steel L Shaped Brackets OEM Sheet Metal Fabrication

Our Product Introduction

for more products please visit us on [metalstamp-parts.com](http://metalstamp-parts.com)

### Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

### Product Specification

- Model Number: WZ3513G
- Material: Steel, Iron, Stainless Steel, Aluminum, Brass, Copper Etc.
- Process: Stamping, Deep Drawing, Laser Cutting, Bending, Welding, CNC Etc
- Surface Treatment: Zinc Plating, Nickel Plating, Powder Coated, Paint, Brushed Etc
- Tolerance:  $\pm 0.002 \sim \pm 0.005 \text{mm}$
- Quality Assurance: ISO9001:2015, ISO13485:2016, RoHs, TUV
- Service: Customize ODM OEM
- Highlight: **Stainless Steel L Shaped Brackets OEM, 0.002mm Stainless Steel L Shaped Brackets, OEM Sheet Metal Fabrication**

## Product Description

Item	Description
Product Name	Stainless Steel L Shaped Brackets OEM Sheet Metal Fabrication
Working Process	Blanking, stamping, Punching, deep drawing, bending, Coining, Curling, Forming, threading, welding, tapping, riveting, cnc machining, CNC Milling
Material	carbon steel, Stainless steel Aluminum, copper, brass, bronze (according to customer's requirements)
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, etc.
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manapulator
Thickness	0.5mm~12mm
File Format	Solidworks, Pro/Engineer, Auto CAD, PDF, JPG
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.
Inspection	100% QC as to each products

*Our OEM sheet metal fabrication services specialize in the production of high-quality stainless steel and aluminum bracket parts using advanced laser cutting and bending techniques. Designed for precision, durability, and versatility, our custom-fabricated brackets are ideal for a variety of applications across multiple industries.*

### Key Features:

Attribute	Options	Description
Material Selection	Stainless steel, aluminum	High-quality materials with excellent durability and performance
Dimensions	Customizable thickness, width, and length	Precision dimensions to fit specific application requirements
Surface Finishes	Polishing, brushing, anodizing, powder coating, electroplating	Enhance appearance and protect against corrosion
Special Features	Custom holes, slots, and perforations	Tailored to meet specific design and functional needs
Mechanical Properties	High strength, flexibility, and durability	Engineered to withstand demanding applications
Quality Assurance	Rigorous inspection, certifications, testing	Ensuring consistent quality and compliance with standards
Industries Served	Automotive, electronics, construction, aerospace, industrial	Versatile applications across a range of sectors
Why Choose Us	Expertise, customization, advanced technology, quality, customer service	Delivering reliable and high-quality custom parts

### Detailed Features:

#### High-Quality Materials:

**Stainless Steel:** Known for its superior corrosion resistance, strength, and durability, making it ideal for harsh environments.

**Aluminum:** Lightweight with excellent corrosion resistance, perfect for applications where weight is a critical factor.

#### Precision Laser Cutting:

Provides highly accurate cuts with smooth edges.

Capable of intricate designs and complex shapes.

Reduces material waste, enhancing efficiency.

### Custom Bending:

- Achieves precise angles and radii for complex parts.
- Maintains structural integrity and strength.
- Allows for the creation of custom shapes and configurations.

### Advanced Surface Finishes:

- Polishing and Brushing:** Enhance the aesthetic appeal and smoothness of the parts.
- Anodizing and Powder Coating:** Provide additional protection against corrosion and wear.
- Electroplating:** Improve durability and environmental resistance.

### Special Features:

- Custom Perforations:** Holes, slots, and patterns tailored to specific requirements.
- Threading:** Accurate threading for screws and fasteners.
- Welding and Assembly:** High-quality welding and assembly for integrated solutions.

### Mechanical Properties:

- Strength and Durability:** Engineered to meet the load-bearing and durability requirements of various applications.
- Flexibility:** Adjustable designs to fit specific application needs.

### Quality Assurance:

- Inspection:** Thorough quality checks at each stage of production.
- Certifications:** Compliance with industry standards and certifications.
- Testing:** Mechanical and environmental testing to ensure reliable performance.

### Applications:

- Automotive:** Brackets and supports for vehicle components.
- Electronics:** Enclosures and mounts for electronic devices.
- Construction:** Structural brackets and supports.
- Aerospace:** Precision parts for aircraft and spacecraft.
- Industrial Equipment:** Custom brackets and components for machinery.

### Why Choose Our Services:

- Expertise:** Extensive experience in OEM sheet metal fabrication.
- Customization:** Tailored solutions to meet specific project requirements.
- Technology:** Advanced laser cutting and bending machinery for precision and efficiency.
- Quality:** Commitment to delivering high-quality, reliable parts.
- Customer Service:** Dedicated support from design consultation to final delivery.

**Contact Us Today:** Ready to enhance your project with our OEM sheet metal fabrication services for stainless steel and aluminum bracket parts? Contact us today to discuss your specific requirements and discover how our expertise can provide the perfect solution. With our comprehensive customization options and unwavering commitment to quality, we are your trusted partner for all your sheet metal fabrication needs.
