ODM Aluminium L Shaped Brackets Brushed Metal Stamping Parts

Basic Information

- Place of Origin:
- Minimum Order Quantity:
- Price:
- Delivery Time:
- Payment Terms:
- Supply Ability:

China

L/C, D/A, D/P, T/T, Western Union, MoneyGram 3000+pcs+Month

Product Specification

 Highl 	light:	ODM Aluminium L Shaped Brackets, Brushed Metal Stamping Parts, Aluminium L Shaped Brackets Brushed
 Servi 	ce:	ODM OEM
• Thick	kness:	0.5mm~12mm
 Surfa 	ace Treatment:	Galvanized, Zinc, Nickel, Chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E-coating, Etc.
Proce	ess:	Blanking, Stamping, Punching, Deep Drawing, Hreading,welding, Tapping, Riveting, Cnc Machining, CNC Milling
 Mate 	rial:	Steel , Iron ,Stainless Steel, Aluminum, Brass, Copper Etc.

Product Description

Item	Description		
Product Name	ODM Aluminium L Shaped Brackets Brushed Metal Stamping Parts		
Working Process	Blanking, stamping, Punching, deep drawing, hreading, welding, tapping, riveting, cnc machining, CNC Milling		
Material	Steel, Iron, Stainless steel, Aluminum, Brass, Copper etc. (according to customer's requirements)		
Surface Treatment	Galvanized, Zinc, nickel, chrome-plated, Powder Coating, Polishing, Spraying, Anodizing, Pickling, E- coating, etc.		
Packing	Inner-Plastic Bag; Outer -Standard Carton Box + Pallet/Wood Case		
Application	Automobiles, Construction, Transportation, Furniture, machinery, home appliance, electronic & electric appliance, Agricultural Equipments		
Equipments	stamping/punching machine, CNC bending machine, CNC Laser cutting machine, 5-250T punching machines, Welding Manapulator		
Quality Assurance	ISO9001:2015, ISO13485:2016, RoHs, TUV		
File Format	Solidworks,Pro/Engineer,Auto CAD,PDF,JPG		
Service	Warm and quick response service provided by the professional Export Sales Team with many years' experience in handling exports to the US, Europe, Japan and other countries and regions.		
Inspection	100% QC as to each products		

Our custom metal stamping services provide high-quality stainless steel and aluminum bracket parts tailored to your specific needs. With advanced stamping technology and precision engineering, we produce durable and reliable parts suitable for a wide range of applications.

Detailed Features:

High-Quality Materials:

Stainless Steel: Offers superior corrosion resistance, strength, and durability, ideal for harsh environments. **Aluminum:** Provides lightweight and excellent corrosion resistance, suitable for applications where weight is a concern.

Precision Metal Stamping:

Produces highly accurate and complex shapes. Capable of detailed designs with consistent quality. Ideal for high-volume production with minimal waste.

Custom Bending:

Achieves precise angles and radii for complex parts. Maintains structural integrity and strength. Allows for the creation of custom shapes and configurations.

Advanced Surface Finishes:

Polishing and Brushing: Enhance the aesthetic appeal and smoothness of the parts. Anodizing and Powder Coating: Provide additional protection against corrosion and wear. Electroplating: Improve durability and resistance to environmental factors.

Special Features:

Custom Perforations: Holes, slots, and patterns tailored to specific requirements.Threading: Accurate threading for screws and fasteners.Welding and Assembly: High-quality welding and assembly for integrated solutions.

Mechanical Properties:

Strength and Durability: Engineered to meet the load-bearing and durability requirements of various applications. **Flexibility:** Adjustable designs to fit specific application needs.

Quality Assurance:

Inspection: Thorough quality checks at each stage of production. Certifications: Compliance with industry standards and certifications. Testing: Mechanical and environmental testing to ensure reliable performance.

Applications:

Automotive: Brackets and supports for vehicle components.
Electronics: Enclosures and mounts for electronic devices.
Construction: Structural brackets and supports.
Aerospace: Precision parts for aircraft and spacecraft.
Industrial Equipment: Custom brackets and components for machinery.

Why Choose Our Services:

Expertise: Extensive experience in custom metal stamping.
Customization: Tailored solutions to meet specific project requirements.
Technology: Advanced machinery for precision and efficiency.
Quality: Commitment to delivering high-quality, reliable parts.
Customer Service: Dedicated support from design consultation to final delivery.

Contact Us Today: Ready to enhance your project with our custom stainless steel and aluminum bracket metal stamping parts? Contact us today to discuss your specific requirements and discover how our expertise can provide the perfect solution. With our comprehensive customization options and unwavering commitment to quality, we are your trusted partner for all your metal stamping needs.
