Suitable for DIY battery connector and ground busbar, heat exchange device, etc.

## Product Description

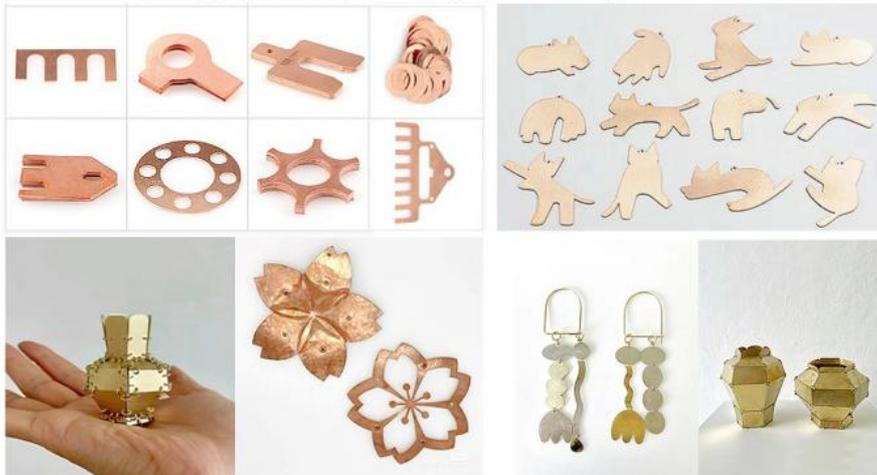

### Copper Flat Bar

- Copper bar is made of 110 copper material, has nice electrical conductivity and good processability, high purity, you can use it according to your requirement.
- Our copper flat bar is nicely polished up and cut, has high strength and hardness, no scratches and very smooth, safe to use.
- If you are a lover of DIY crafts, you should prepare this copper flat bar, because it is indeed widely used and multifunctional, you will definitely use it.

**Warm tips:** Metallic copper surfaces may oxidize naturally, but this won't affect their functionality. Restore their shine by polishing with fine sandpaper.

#### Widely used in various scenarios

[Warm tips] Copper surfaces may oxidize naturally. Polish with fine sandpaper to restore shine.

#### Copper Strips Demonstrate Excellent Thermal Conductivity

Copper bus bar is hard, strong, high purity, well cut & polished without any burrs, you will never be disappointed.

#### Copper Bar Stock Is Easy To Cut And Drill

You can cut the copper flat bar to the length you want, convenient and easy.

#### DIY Process Preferred

Our high purity copper flat bar is the ideal choice of DIY enthusiast, good at welding and brazing, is the ideal material for your DIY project.
