

High-Quality Bill Insertion Motor Bracket for Optimal Support

Our Product Introduction

for more products please visit us on metalstamp-parts.com

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1000
- Price: \$ +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

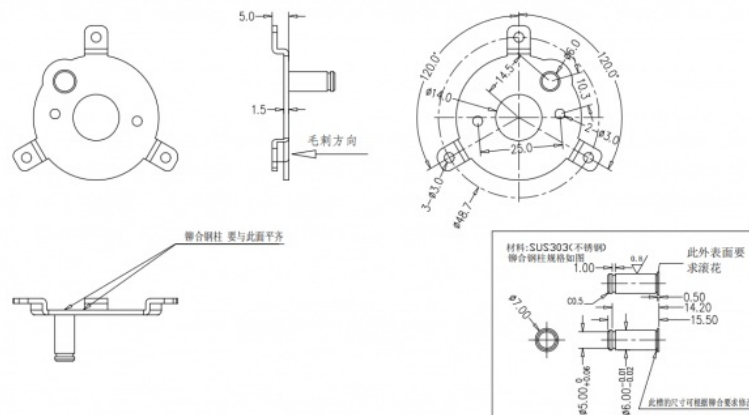

- Material: SECC
- Rivet Material: SUS 303
- Material Thickness: T=1.5mm
- Application: ATM Automatic Teller Machine; Vending Machine; Financial Self-service Terminal; Bill Processing Equipment
- Working Procedure: Cutting, Forming, Riveting, Cleaning And Packaging

Product Description

Product Description of Bill Insertion Motor Bracket

Product Name

Bill Insertion Motor Bracket

Material**Common Materials:** Cold-rolled steel (SPCC), Stainless steel (SUS304/SUS316), Aluminum alloy**Surface Treatment:** Galvanization, Electrophoretic coating, Powder coating, Anodizing**Features****High Strength Support** – Ensures stable operation of the bill insertion motor, reducing vibration and displacement.**Corrosion Resistance** – Surface treated for rust prevention, suitable for various working environments.**Precision Manufacturing** – Made with CNC stamping, laser cutting, bending, and welding to ensure dimensional accuracy.**Easy Installation** – Equipped with standard mounting holes for seamless assembly with the motor and other components.**Strong Compatibility** – Compatible with various bill insertion motor models and supports custom designs.**Application Fields**

ATM (Automated Teller Machine)

Vending Machines

Financial Self-service Terminals

Bill Processing Equipment

Customization Options**Size Specifications** – Customizable dimensions and mounting hole positions based on requirements.**Material Selection** – Available in different metal materials to suit various environments.**Surface Treatment** – Custom coatings and finishes for enhanced durability and appearance.
