

Sandblast ATM Dispenser Mechanism Metal Components Steel Stamped Part with Colour Anodize

Our Product Introduction

for more products please visit us on metalstamp-parts.com

Basic Information

- Minimum Order Quantity: 1000
- Price: \$ +5~20+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Material: Aluminum,Stainless Steel,SECC,Carbon Steel,SPTE
- Process: Stamping,bending,Turning/Milling/Grinding/M: Cutting/Forging,Laser Cutting,cnc Parts
- Surface Treatment: Painting/Powder Coating/Sandblast/Electroplating/Colour Anodize,anodized,Non,customized,Zinc Electrpheoresis
- Tolerance: 0.01-0.05mm,+/-0.05mm,+/- .005 For Hole,+/- .010 For Other Size
- Size: Customized Size,as Customer Require
- Product Name: Sheet Metal Stamping Parts Machined Parts,Stamping Part
- Service: Customized OEM
- Thickness: 3 +/- .005mm,0.5~25mm
- Application: Light Parts,electronic Parts,auto Parts,motor Parts,customized
- Experience: 20 Years Over 15 Years

Product Description

Product Name: ATM Dispenser Mechanism Metal Components

Product Description:

We specialize in the production of custom precision metal parts used in ATM dispenser mechanisms. Our components are designed to support critical mechanical functions such as note separation, feeding, alignment, and delivery. With tight tolerance control and excellent surface finishes, our parts help ensure smooth and reliable operation in high-duty ATM environments.

Component Range Includes:

Precision Stamped Brackets
Steel Shafts and Support Pins
Custom Gears and Gear Racks
Spring Retainers and Flat Springs
Sheet Metal Guide Plates
Mounting Frames and Structural Connectors
Separator Forks and Pickup Levers

Materials We Work With:

Stainless Steel (304, 316, 430)
Cold Rolled Steel / Carbon Steel
High-Tensile Spring Steel (65Mn, SK85)
Aluminum Alloys (6061, 7075)
Special alloys available on request

Why Choose Us:

High-Precision Machining: Tolerance up to $\pm 0.01\text{mm}$

Strict Quality Control: In-house dimensional inspection, material traceability, and process documentation

Flexible Production: Small-batch prototyping to mass production with stable lead time

Experienced Engineering Team: Support for DFM (Design for Manufacturability), reverse engineering, and drawing optimization

International Standards Compliance: RoHS, REACH, ISO 9001 supported production

Surface Treatment Options:

Electroplating (Zinc, Nickel)
Black Oxide / Phosphate Coating
Anodizing for Aluminum Components
Sandblasting, Brushing, or Custom Finish on Request

Typical Applications:

Used in ATM cash dispensing modules for brands like NCR, Diebold, Wincor, GRG, Hitachi
ATM refurbishment and part replacement markets
Ideal for ATM OEMs, maintenance contractors, and spare parts distributors

Packaging & Shipping:

Export-safe packaging with part identification labels
Custom labeling, barcoding, or branding available
Fast global delivery with full document support (CO, PL, CI, MSDS if required)
