

## Automobile Metal Stamping Parts Custom Gear Shafts with Reverse Engineering and Powder Coating

Our Product Introduction

for more products please visit us on [metalstamp-parts.com](http://metalstamp-parts.com)

### Basic Information

- Minimum Order Quantity: 1000
- Price: \$ +5~20+Pcs
- Delivery Time: 15-30
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 3000+pcs+Month

### Product Specification

- Surface Treatment: Painting, Powder Coating, Sandblast, Electroplating, Colour Anodize, Zinc Electrophoresis
- Use Case Scenarios: ATM Cash Handling Systems, Preventive Maintenance Kits, Refurbishment Projects, Alternative Sourcing
- Application: Light Parts, Electronic Parts, Auto Parts, Motor Parts, ATM Cash Dispenser Units
- Tolerance: 0.01-0.05mm, +/-0.05mm, +/-0.005 For Hole, +/-0.010 For Other Size
- Manufacturing Processes: CNC Machining, Stamping, Punching, Wire EDM, Laser Profiling, Heat Treatment, Deburring, Polishing, Assembly-Ready Part Preparation
- Sample Confirmation: Free Sample

Product Description:

Metal stamping parts are essential components used in a wide range of industries for various applications. One of the key products in this category is the Brass Stamping Parts, known for their durability and versatility. These parts are commonly used in industries such as automotive, electronics, and manufacturing.

When it comes to logistics and compliance, our Metal Stamping Parts are packaged with utmost care to ensure they are protected during transportation and storage. We prioritize on-time delivery to meet our customer's requirements and adhere to quality protocols to guarantee the highest standard of products. Material certificates are also provided to ensure traceability and compliance with industry standards.

Customization is a key feature of our Metal Stamping Parts, with the ability to produce parts in a customized size as per customer requirements. The thickness of the parts is maintained at 3 +/- 0.005mm, with a range of 0.5 to 25mm available to cater to various needs. Surface treatment options for our Metal Stamping Parts include painting, powder coating, sandblast, electroplating, color anodize, and zinc electrophoresis. These treatments not only enhance the appearance of the parts but also provide added protection against corrosion and wear.

Our Metal Stamping Parts are manufactured using a variety of materials to suit different applications. These materials include SECC-T1N, stainless steel, alloy steel, aluminum, high-carbon, and spring steel. Each material offers unique properties that make them suitable for specific use cases.

Some common use case scenarios for our Metal Stamping Parts include ATM cash handling systems, preventive maintenance kits, refurbishment projects, and alternative sourcing. These parts play a crucial role in ensuring the smooth operation of various systems and equipment across different industries.

Features:

- Product Name: Metal Stamping Parts -----
- Part Categories:
- Sheet Metal Frames
  - Support Arms
  - Gear Shafts
  - Rollers
  - Locking Plates
  - Positioning Brackets
  - Spring Clips
  - Anti-Jam Structures
  - Mounting Interfaces
  - Fasteners
  - Guide Pins
- Tolerance:
- 0.01-0.05mm
  - +/-0.05mm
  - +/-0.005 For Hole
  - +/-0.010 For Other Size
- Use Case Scenarios:
- ATM Cash Handling Systems
  - Preventive Maintenance Kits
  - Refurbishment Projects
  - Alternative Sourcing
- Surface Treatment:
- Painting
  - Powder Coating
  - Sandblast
  - Electroplating
  - Colour Anodize
  - Zinc Electrpophoresis
- Size: Customized Size as Customer Require, Thickness: 3 +/-0.005mm, 0.5~25mm

Technical Parameters:

Customization Services	----- Tailored Production, Reverse Engineering, Batch Production, Technical Consultation
Manufacturing Processes	CNC Machining, Stamping, Punching, Wire EDM, Laser Profiling, Heat Treatment, Deburring, Polishing, Assembly-Ready Part Preparation
Logistics & Compliance	Protected Packaging, On-Time Delivery, Conformance to Quality Protocols, Material Certificates

Part Categories	Sheet Metal Frames, Support Arms, Gear Shafts, Rollers, Locking Plates, Positioning Brackets, Spring Clips, Anti-Jam Structures, Mounting Interfaces, Fasteners, Guide Pins
Application	Light Parts, Electronic Parts, Auto Parts, Motor Parts, ATM Cash Dispenser Units
Processes	Stamping, Bending, Turning, Milling, Grinding, Machining, Welding, Laser Cutting, Forging, CNC Machining, Wire EDM, Heat Treatment, Deburring, Polishing, Protective Coating
Material	SECC-T1N, Stainless Steel, Alloy Steel, Aluminum, High-Carbon and Spring Steel
Use Case Scenarios	ATM Cash Handling Systems, Preventive Maintenance Kits, Refurbishment Projects, Alternative Sourcing
Size	Customized Size as Customer Require, Thickness: 3 +/-0.005mm, 0.5~25mm
Surface Treatment	Painting, Powder Coating, Sandblast, Electroplating, Colour Anodize, Zinc Electrophoresis

## Applications:

Custom Metal Stamping Parts find a wide array of application occasions and scenarios due to their versatile nature and high functionality. These precision-engineered components are ideal for industries such as automotive, aerospace, electronics, construction, and more. Here are some key product application occasions and scenarios:

- Automotive Industry: Custom Metal Stamping Parts are used in the manufacturing of various automotive components such as brackets, brackets, brackets, and brackets.
- Electronics Industry: Copper Stamping Parts are highly sought after in the electronics industry for their conductivity and durability. These parts are used in the production of circuit boards, connectors, and other electronic devices.
- Construction Industry: Custom Sheet Metal Stamping is essential in the construction industry for creating structural components, supports, and fixtures. These parts are known for their strength and reliability.

With a Minimum Order Quantity of 1000 pieces and a competitive price range of \$5 to \$20 per piece, these metal stamping parts offer cost-effective solutions for businesses. The flexible Payment Terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram, making transactions convenient for buyers.

Moreover, the Supply Ability of 3000+ pieces per month ensures that clients can meet their production demands efficiently. The Delivery Time of 15-30 days allows for timely fulfillment of orders, while the provision of Free Samples for sample confirmation enables customers to test the quality before making bulk purchases.

Customization Services such as Tailored Production, Reverse Engineering, Batch Production, and Technical Consultation cater to the specific needs of clients. The Size customization options, with a thickness of 3 +/- 0.005mm and a range of 0.5 to 25mm, ensure that the parts meet precise specifications.

Additionally, the comprehensive range of Processes involved in manufacturing, including Stamping, Bending, Turning, Milling, Grinding, Machining, Welding, Laser Cutting, Forging, CNC Machining, Wire EDM, Heat Treatment, Deburring, Polishing, and Protective Coating, guarantee high-quality and durable metal stamping parts.

In conclusion, Custom Metal Stamping Parts serve as essential components in various industries, offering reliable performance, customization options, and efficient production processes to meet diverse application requirements.

## Support and Services:

Our Product Technical Support and Services for Metal Stamping Parts include:

- Expert assistance with product installation and setup
- Troubleshooting guidance for any issues that may arise
- Maintenance tips to ensure optimal performance and longevity
- Repair services for damaged or malfunctioning parts
- Upgrades and enhancements to improve product functionality

## Packing and Shipping:

Product Packaging:

The metal stamping parts are carefully packed in a sturdy cardboard box with ample cushioning to prevent any damage during transportation.

Shipping:

We offer fast and reliable shipping services to ensure that your metal stamping parts are delivered to you in a timely manner. Our shipping partners are experienced in handling delicate parts to guarantee safe delivery.

## FAQ:

Q: What is the minimum order quantity for Metal Stamping Parts?

A: The minimum order quantity for Metal Stamping Parts is 1000 pieces.

Q: What is the price range for Metal Stamping Parts?

A: The price for Metal Stamping Parts ranges from \$5 to \$20 per piece.

Q: What are the accepted payment terms for purchasing Metal Stamping Parts?

A: The accepted payment terms for Metal Stamping Parts include L/C, D/A, D/P, T/T, Western Union, and MoneyGram.

Q: What is the supply ability for Metal Stamping Parts?

A: The supply ability for Metal Stamping Parts is 3000+ pieces per month.

Q: What is the typical delivery time for Metal Stamping Parts?

A: The typical delivery time for Metal Stamping Parts is between 15 to 30 days.
