#### **Product Description:**

Our Metal Stamping Parts are expertly crafted to meet your specific requirements, offering exceptional quality and precision. With a focus on durability and performance, these parts are ideal for a wide range of applications. The surface treatment of these parts includes plating, enhancing their resistance to corrosion and wear.

Quality assurance is a top priority in our production process. We conduct in-process inspections at every stage to ensure that each part meets our stringent standards. Our final QC includes dimensional verification using advanced tools, guaranteeing the accuracy and consistency of the parts. Additionally, we provide material certifications for full transparency and compliance. Our ISO 9001-based quality management process further ensures that our Metal Stamping Parts adhere to the highest industry standards.

For a sleek and professional finish, our Metal Stamping Parts are treated with oxidation, giving them a polished look while also providing added protection. This finish not only enhances the appearance of the parts but also contributes to their longevity and performance. Our Metal Stamping Parts are available in a variety of material specifications to suit different needs. We offer Stainless Steel options such as 304 and 316 for superior strength and corrosion resistance. Carbon Steel choices include Q235 and 45#, known for their durability and toughness. Spring Steel variants like SK5 and 65Mn are ideal for applications requiring flexibility and resilience. For lightweight yet sturdy options, we provide Aluminum Alloys such as 6061 and 5052, perfect for a wide range of uses.

When it comes to customization, our Metal Stamping Parts feature a customized progressive die mold. This allows us to tailor the parts to your exact specifications, ensuring a perfect fit and optimal performance for your specific applications. Whether you require Deep Drawn Metal Stamping, Deep Draw Metal Stamping, or Aluminum Stamping Parts, our versatile manufacturing process can accommodate your needs with precision and efficiency.

#### Features:

Product Name: Metal Stamping Parts

Material Thickness: 0.1mm

Tooling Life: 5000 Shots

Manufacturing Capabilities: Precision CNC turning, milling, grinding, Complex stamping and sheet metal forming

Type Of Die: Progressive Die

Tolerance Control: ±0.01mm

#### **Technical Parameters:**

| Handle<br>Type                        | All Kinds   |
|---------------------------------------|---|
| Press<br>Force                        | 25Ton   |
| Quality<br>Assuranc<br>e              | In-process inspections, Final QC with dimensional verification tools, Material certifications, ISO 9001-based quality management process  |
| Manufactu<br>ring<br>Capabilitie<br>s | Precision CNC turning, milling, grinding, Complex stamping and sheet metal forming  |
| Odm                                   | Available   |
| Mold                                  | Customized Progressive Die  |
| Material<br>Thickness                 | 0.1mm   |
| Surface<br>Finish                     | Sand Blasting   |
| Applicatio<br>ns                      | Used in ATM cash dispensers for note feeding, separation, and delivery systems, Compatible with major brands such as NCR, Diebold, Wincor, GRG, Hyosung, Suitable for ATM OEM manufacturing, maintenance, refurbishment, and spare parts supply |
| Finish                                | Oxidation   |

#### **Applications:**

Product Application Occasions and Scenarios for Copper Stamping Parts, Deep Draw Metal Stamping, and Brass Stamping Parts: The Metal Stamping Parts offered are ideal for various applications due to their versatile nature and high-quality manufacturing attributes. With a Minimum Order Quantity of 1000 pieces and a Price range of \$5 to \$20 per piece, these parts are suitable for a wide range of scenarios.

These Metal Stamping Parts find their primary applications in ATM cash dispensers for note feeding, separation, and delivery systems. They are compatible with major ATM brands such as NCR, Diebold, Wincor, GRG, and Hyosung, making them a reliable choice for ATM OEM manufacturing, maintenance, refurbishment, and spare parts supply.

Manufactured using precision CNC turning, milling, grinding, as well as complex stamping and sheet metal forming capabilities, these parts offer exceptional quality and durability. Customized in size, with a Press Force of 25Ton and a Surface Finish of Sand Blasting, they meet the highest standards in the industry.

With flexible Payment Terms including L/C, D/A, D/P, T/T, Western Union, and MoneyGram, customers have various options to choose from. Moreover, with a Supply Ability of 3000+ pieces per month and a Delivery Time of 15-30 days, these Metal Stamping Parts ensure timely availability and efficient service.

#### Support and Services:

Our Product Technical Support and Services for Metal Stamping Parts include:

- Expert advice on design and material selection for your specific project requirements
- Assistance in troubleshooting any issues related to the metal stamping process
- Custom tooling and die design services to meet your unique production needs
- Quality assurance and testing to ensure the precision and consistency of your stamped parts

### **Packing and Shipping:**

Product Packaging:

Each metal stamping part is carefully wrapped in protective material to prevent scratches and damage during transit. The parts are then placed in sturdy cardboard boxes with ample cushioning to ensure they arrive in optimal condition. Shipping Information:

We offer fast and reliable shipping services for our metal stamping parts. Orders are processed and shipped within 1-2 business days. Customers can choose from various shipping options including standard, expedited, and express delivery to meet their specific needs.

## FAQ:

Q: What is the minimum order quantity for Metal Stamping Parts?

- A: The minimum order quantity is 1000 pieces.
- Q: What is the price range for Metal Stamping Parts?
- A: The price ranges from \$5 to \$20 per piece.
- Q: What are the accepted payment terms for Metal Stamping Parts?
- A: We accept payment via L/C, D/A, D/P, T/T, Western Union, and MoneyGram.
- Q: What is the supply ability for Metal Stamping Parts?
- A: Our supply ability is over 3000 pieces per month.
- Q: What is the delivery time for Metal Stamping Parts?
- A: The delivery time is typically between 15 to 30 days.
