

## Polycarbonate Base Material Metal Stamping Parts with RoHS Certification and 5000 Shots Tooling Life

Our Product Introduction

### Basic Information

- Minimum Order Quantity: 500
- Price: +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

### DIY Craft Making Material

### Product Specification

- Dimension: As Per Drawing Or Custom's Sample
- Mould Life: 1 Million Times Of Strokes
- Package: Standard Export Carton
- Base Material: Polycarbonate
- Tooling: Drawing Dies
- Type: Cold Stamping
- Use: Custom
- Method: Stamping
- Highlight: RoHS certified metal stamping parts,  
polycarbonate base metal stamping parts,  
5000 shots tooling life stamping parts

## Product Description

### Polycarbonate Base Material Metal Stamping Parts with RoHS Certification and 5000 Shots Tooling Life

#### Product Description

Precision metal stampings are a crucial component in various industries, providing cost-effective solutions for producing high volumes of intricate metal parts. These Metal Stamping Parts are known for their exceptional quality and reliability.

Utilizing the method of Stamping, these metal parts are manufactured to meet the highest standards of precision and durability. With a Tooling Life of 5000 Shots, these parts are designed to withstand repeated use without compromising on quality.

The Dimension of these parts is tailored to meet specific requirements, adhering strictly to the provided drawings or custom samples. This customization ensures optimal performance and functionality in the intended application.

#### Key Features

- Metal forming parts
- Metal forming elements
- Metal blanking components
- Product Name: **Metal Stamping Parts**
- Base Material: **Polycarbonate**
- Roughness: **Ra1.6**
- Specification: **RoHS**
- Package: **Standard Export Carton**
- Use: **Custom**

#### Technical Parameters

| Parameter         | Value                             |
|-------------------|-----------------------------------|
| Roughness         | Ra1.6                             |
| Place Of Original | Dong Guan China                   |
| Tooling Life      | 5000 Shots                        |
| Sample            | Free Sample Is Ok                 |
| Use               | Custom                            |
| Type              | Cold Stamping                     |
| Base Material     | Polycarbonate                     |
| Mould Life        | 1 Million Times Of Strokes        |
| Dimension         | As Per Drawing Or Custom's Sample |
| Method            | Stamping                          |

#### Applications

Metal stamping parts, also known as metal bending components, metal pressing parts, or metal forming elements, are versatile products that find applications in various industries including automotive, electronics, and machinery.

These precision components are manufactured in China with a minimum order quantity of 500 pieces and a price range of \$1 to \$10 per piece. The delivery time is typically 15-20 days, with flexible payment terms available.

Quality control includes 100% inspection before delivery and parts detection using three-axis NC measurement to ensure all components meet required specifications.
