

Professional Cold Stamping Sheet Metal Stampings for Production

Our Product Introduction

Basic Information

- Minimum Order Quantity: 500
- Price: +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Copper Flat Bar Size

Thickness:3/8" (10mm)
Width:1" (25mm)
Length:6" (152mm)

Product Specification

- Mould Life: 1 Million Times Of Strokes
- Parts Detection Method: Measurement Of Three Axis NC
- Base Material: Polycarbonate
- Tooling: Drawing Dies
- Sample: Free Sample Is Ok
- Package: Standard Export Carton
- Roughness: Ra1.6
- Tooling Life: 5000 Shots
- Highlight: cold stamping sheet metal parts,
professional metal stampings for production,
industrial sheet metal stampings

Product Description

Professional Cold Stamping Sheet Metal Stampings for Production

Product Overview

Metal Stamping Parts are essential components used in various industries for a wide range of applications. These parts are known for their durability, precision, and versatility. Customizable to specific requirements, they are highly sought after in the manufacturing sector. Dimensions are carefully crafted to meet exact specifications, whether manufacturing according to drawings or custom samples. The parts are packaged in standard export cartons for convenient handling and transportation, ensuring protection during transit. Cold stamping technology produces high-quality parts with excellent dimensional accuracy at room temperature, ideal for intricate designs and complex shapes. The stamping method is a cost-effective process for producing large quantities with consistent quality. Manufactured from durable polycarbonate material, these parts offer excellent strength, impact resistance, and resistance to corrosion and wear, ensuring long service life in demanding industrial applications.

Key Features

- Precision metal stampings
- Metal pressing parts
- Sheet metal punching parts
- Product Name: Metal Stamping Parts
- Dimension: As Per Drawing Or Custom's Sample
- Package: Standard Export Carton
- Use: Custom
- Tooling: Drawing Dies
- Sample: Free Sample Available

Technical Specifications

Specification	Value
Roughness	Ra1.6
Method	Stamping
Tooling	Drawing Dies
Type	Cold Stamping
Base Material	Polycarbonate
Place of Origin	Dong Guan, China
Quality Control	100% Inspection Before Delivery
Sample	Free Sample Available
Package	Standard Export Carton

Applications

Sheet metal punching parts, sheet metal stampings, and metal forming parts are widely used across various industries due to their versatility and durability. These components are ideal for:

- Automotive applications
- Electronics manufacturing
- Construction components
- Industrial equipment

With a minimum order quantity of 500 pieces and competitive pricing (\$1-\$10 per piece), these parts suit both small and large-scale production needs. Delivery time of 15-20 days accommodates tight production schedules. Flexible payment options include L/C, D/A, D/P, T/T, Western Union, and MoneyGram. Monthly production capacity exceeds 3000 pieces, ensuring reliable supply. The tooling life of 5000 shots provides cost-effective, long-lasting performance. RoHS compliant and environmentally friendly, these cold stamping parts meet international safety standards for diverse applications.
