

Tooling Drawing Dies Metal Stamping Parts with RoHS Compliance and Precision Ra1.6 Roughness

Our Product Introduction

Basic Information

- Minimum Order Quantity: 500
- Price: +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Tooling Life: 5000 Shots
- Parts Detection Method: Measurement Of Three Axis NC
- Specification: RoHS
- Sample: Free Sample Is Ok
- Dimension: As Per Drawing Or Custom's Sample
- Roughness: Ra1.6
- Method: Stamping
- Use: Custom
- Highlight: **RoHS compliant metal stamping dies, precision metal stamping parts Ra1.6, tooling drawing dies with warranty**

Product Description

Tooling Drawing Dies Metal Stamping Parts with RoHS Compliance and Precision Ra1.6 Roughness

Product Description

Our Metal Stamping Parts are specifically designed to meet the RoHS specifications, ensuring that they are environmentally friendly and safe for use in various applications. Whether you require metal blanking components, metal forming elements, or sheet metal stampings, our product is versatile enough to meet your specific needs.

One of the key features of our Metal Stamping Parts is that they are manufactured using cold stamping techniques. This method allows for the production of highly precise and intricate parts with excellent surface finish and dimensional accuracy. Cold stamping also helps in maintaining the material's structural integrity, making our parts highly durable and long-lasting.

When it comes to packaging, our Metal Stamping Parts are carefully packed in standard export cartons to ensure safe transportation and delivery. We understand the importance of protecting the parts during transit, which is why we take extra care in packaging to prevent any damage or deformation.

Dimensional flexibility is another highlight of our Metal Stamping Parts. We can produce parts as per your specific drawings or custom samples, ensuring that they fit perfectly into your assembly or production processes. This customization option allows you to get exactly what you need without compromising on quality or performance.

With a mould life of 1 million times of strokes, our Metal Stamping Parts are built to withstand high-volume production requirements. This exceptional mould life ensures consistent and reliable performance over an extended period, making our parts a cost-effective solution for your manufacturing needs.

Whether you are in the automotive, electronics, or industrial manufacturing sector, our Metal Stamping Parts are ideal for a wide range of applications. From simple brackets to complex components, our parts are designed to meet the diverse needs of various industries.

Features

Product Name: Metal Stamping Parts

Specification: RoHS

Tooling: Drawing Dies

Method: Stamping

Place Of Original: Dong Guan China

Type: Cold Stamping

Technical Parameters

Parameter	Value
Type	Cold Stamping
Use	Custom
Base Material	Polycarbonate
Place Of Original	Dong Guan China
Package	Standard Export Carton
Mould Life	1 Million Times Of Strokes
Roughness	Ra1.6
Parts Detection Method	Measurement Of Three Axis NC
Tooling	Drawing Dies
Specification	RoHS

Applications

Metal stamping parts, also known as sheet metal stampings, are versatile components widely used in various industries due to their durability, precision, and cost-effectiveness. These metal fabrication components are produced in China, a leading manufacturing hub known for its quality craftsmanship and competitive pricing.

The minimum order quantity for metal stamping parts is 500 pieces, with prices ranging from \$1 to \$10 per piece, making them suitable for both small-scale and large-scale projects. With a delivery time of 15-20 days, customers can rely on prompt fulfillment of their orders. Accepted payment terms for these metal stamping parts include L/C, D/A, D/P, T/T, Western Union, and MoneyGram, providing flexibility for buyers worldwide. The supply ability of 3000+ pieces per month ensures a steady availability of these essential components.

Manufactured from high-quality polycarbonate, the metal stamping parts undergo 100% inspection before delivery to ensure compliance with specifications and quality standards, including RoHS requirements. The cold stamping process used in production results in precise and intricate designs that meet the needs of diverse applications.

These metal stamping parts are suitable for a wide range of product application occasions and scenarios, including but not limited to:

Automotive industry: for manufacturing vehicle components

Electronics sector: for producing electronic enclosures and connectors

Appliances manufacturing: for creating durable appliance parts

Furniture production: for fabricating sturdy furniture hardware

Construction sector: for use in structural elements and fixtures

Each order of metal stamping parts is carefully packaged in standard export cartons to ensure safe transit and delivery to customers worldwide. With their unmatched quality, durability, and versatility, these metal stamping parts are essential components for a wide range of industries and applications.
