

Custom Metal Forming Elements Drawing Dies Tooling for Precise Results

Our Product Introduction

Basic Information

- Minimum Order Quantity: 500
- Price: +1~10+Pcs
- Delivery Time: 15-20
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 3000+pcs+Month

Product Specification

- Quality Control: 100% Inspection Before Delivery
- Base Material: Polycarbonate
- Tooing Life: 5000 Shots
- Parts Detection Method: Measurement Of Three Axis NC
- Roughness: Ra1.6
- Mould Life: 1 Million Times Of Strokes
- Use: Custom
- Sample: Free Sample Is Ok
- Highlight: **custom metal forming dies,
precision drawing dies tooling,
metal stamping parts with warranty**

Custom Metal Forming Elements Drawing Dies Tooling for Precise Results

Product Description

Metal Stamping Parts are essential components in various industries, known for their durability, precision, and versatility in manufacturing processes. These parts are crucial in creating intricate metal bending components and metal forming parts that meet stringent industry standards.

One of the key attributes of our Metal Stamping Parts is the superior surface finish achieved with a roughness level of Ra1.6. This level of roughness ensures a high-quality finish, making these parts ideal for applications where precision and aesthetics are paramount. For customers interested in evaluating the quality and performance of our Metal Stamping Parts, we offer Free Samples to help them make an informed decision. This commitment to customer satisfaction and transparency reflects our confidence in the excellence of our products. Designed for long-term use, our Metal Stamping Parts boast a remarkable Mould Life of 1 Million Times of Strokes. This exceptional durability ensures that these parts can withstand extensive use in demanding manufacturing environments, providing reliable performance and cost-effectiveness.

When it comes to dimensions, our Metal Stamping Parts are customizable to meet specific requirements. Whether you need parts made as per drawing specifications or custom samples, we have the capability and expertise to deliver precision-engineered components that fit your exact needs.

Another notable feature of our Metal Stamping Parts is their impressive Tooling Life, with a capacity of 5000 Shots. This extended tooling life translates to long-term cost savings for our customers, as they can rely on these parts for multiple production runs without compromising quality or efficiency.

Features

- Product Name:** Metal Stamping Parts
- Dimension:** As Per Drawing Or Custom's Sample
- Mould Life:** 1 Million Times Of Strokes
- Use:** Custom
- Roughness:** Ra1.6
- Tooling:** Drawing Dies

Technical Parameters

Parameter	Value
Dimension	As Per Drawing Or Custom's Sample
Roughness	Ra1.6
Package	Standard Export Carton
Use	Custom
Base Material	Polycarbonate
Place Of Original	Dong Guan China
Sample	Free Sample Is Ok
Method	Stamping
Mould Life	1 Million Times Of Strokes
Specification	RoHS

Applications

Product Application Occasions and Scenarios for the Metal Stamping Parts:

Sheet metal punching parts, Metal blanking components, Sheet metal stampings

Originating from China, these metal stamping parts are suitable for various industries and applications due to their versatility and durability. With a minimum order quantity of 500 pieces, these parts are ideal for both small-scale and large-scale production needs. The price range of \$1 to \$10 per piece makes these metal stamping parts cost-effective without compromising on quality. The delivery time of 15-20 days ensures timely fulfillment of orders, enabling smooth production processes.

Accepted payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram, providing flexibility and convenience for customers.

With a supply ability of over 3000 pieces per month, these parts can meet the demands of various manufacturing operations. Manufactured using the stamping method, these parts have a tooling life of 5000 shots, ensuring long-lasting performance and efficiency. The specification of RoHS compliance guarantees environmental safety and regulatory adherence. With a roughness of Ra1.6, these metal stamping parts exhibit high precision and quality surface finish, meeting stringent industry standards. The mould life of 1 million times of strokes highlights the durability and reliability of these parts, making them a cost-effective investment for businesses.
